

Pollution Cost More Than Its Control: Udall

CHICAGO (AP) — Interior Secretary Stewart L. Udall said today the nation no longer can afford not to stop the creeping corruption of its waters.

He sounded the keynote at a meeting of federal, state and local officials of the Great Lakes region.

"The tragic condition of many of the waters of this country is a result of the economic fallacy that we cannot afford to control pollution," Udall said.

"Today there is a wide and growing realization that we cannot afford not to control pollution — that the effects of pollution are far more costly than its control."

The conference was called by Vice President Hubert H. Humphrey to lay the groundwork for a renewed attack on the problem in the region that embraces the world's largest cluster of fresh-water lakes.

Udall said the necessary knowledge and techniques now are available to control water corruption.

He said the federal government is determined to prevent further destruction of water resources.

There is an expanded construction grants program in the near offing," he said. "And for the first time there are to be standards of quality for all the nation's interstate streams."

Udall said "premature aging" is far advanced in Lake Erie, and it is beginning in Lakes Ontario and Michigan.

A federal spokesman said Lake Erie's fish population has been reduced drastically by pollution.

The Great Lakes — their levels now in a rising cycle — have borne increasing tonnages of international cargo. But the condition of the waters has resulted in conferences in the last two years covering Lake Erie, the Green Bay (Wis.) District, the Detroit River and tributaries and the industry — lined southern end of Lake Michigan. They brought forth remedial programs.

Federal, Illinois and Indiana officials agreed in March, 1965, on plans for reducing pollution in the southern of Lake Michigan.

Among other things, industrial firms will be required to submit corrective engineering blueprints to state and federal agencies by Dec. 1. They have agreed on water quality standards which will control what and how much waste can be dumped into the lake.

The current conference is devoted to "developing more effective actions for control of water pollution throughout the region."

Youth Beat

The "National Report on What's Happening" for teenagers, Youth Beat, starts Friday in the Escanaba Daily Press.

Watch each Friday for the latest news and notes about food, fashions and perfume for boys.

Weather

By The Associated Press

ESCANABA AND VICINITY—Mostly sunny but cool today, high 64. Friday partly cloudy and cool, chance of a few light showers by afternoon or evening, high 68. Winds northerly (5 to 15 mph) becoming light and variable tonight. Saturday outlook: considerable cloudiness and cool. High yesterday, 65 and low overnight, 41. Precipitation probabilities: today, less than 5%; tonight, 5%; Friday, 20%.

Upper Peninsula—Mostly sunny this afternoon. Partly cloudy and not as cool tonight. Friday partly cloudy with little temperature change and chance of brief light showers. Lows tonight mostly in the 40s. Highs Friday 58 to 66.

Johnson Policy Hits Taxpayer Doubly: Griffin

WASHINGTON (AP) — Sen. Robert P. Griffin, R-Mich., said today the Johnson administration's inflationary policy is hitting the taxpayer doubly in the pocketbook.

This is done, he said in a statement, not only by draining the taxpayer's income, but also by burdening him with increased costs of local government.

Pointing to statements made by Michigan municipal officials who are complaining about inflation and its effect on local government, Griffin said these officials estimate that material, service and payroll costs have gone up more than 20 per cent for local governments in recent months.

"The meaning of this is very clear," Griffin said. "The federal government has set loose the forces of inflation and has delivered a double whammy to the American people."

Americans, he said, are caught in an inflationary backlash that could spell higher taxes at both the federal and local levels.

"The price spiral at the local level has already taken place," Griffin said. "Municipal employees have obtained or are seeking wage increases to make up for the bite that inflation has taken out of their paychecks."

Opponents of the civil rights bill cite two developments as prime evidence of a strong trend among voters against open housing. First, the Senate's defeat of an attempt to bring up the House-passed civil rights bill, and second, the victory of an open housing critic in Maryland's Democratic gubernatorial primary.

But supporters of a partial ban on housing discrimination called these unreliable indicators of voter sentiment nationwide.

Vice President Hubert H. Humphrey said he did not believe white reaction would be of major significance on the national level, although he conceded it could affect some local races.

"I can't see the backlash as too much of a factor in November," Humphrey said in an interview. "I do not believe any candidate will campaign on the race issue. Republicans are as interested as Democrats in not being anti-Negro. Both political parties have high respect for civil rights."

Education To Cut Crime Rate

DETROIT (AP)—Justice Otis M. Smith of the Michigan Supreme Court says that new state and federal education programs will help reduce the crime rate.

"An analysis of the educational standards of those who pass through our criminal courts demonstrates that the incidence of crime is in direct proportion to the lack of education," Smith told students at the University of Detroit Law School Wednesday.

He said the Elementary and Secondary Education Act passed by Congress last year and new state programs adopted by the Legislature "are aimed at breaking the relationship which exists between poverty and low educational achievement."

Marines Mount New Drive On Red Viet Force

SAIGON, South Viet Nam (AP) — Ships and helicopters landed a reinforced battalion of U.S. Marines three miles south of the demilitarized zone today to help choke off infiltration by Hanoi's regulars. A barrage of shells and rockets churned beach areas in advance. The Communists offered no resistance.

More than 1,200 American Leathernecks moved in to give a hand to two battalions of Vietnamese government troops already in the area. Briefing officers said the sweep is aimed against North Viet Nam's 324B Division, apparently resupplied, regrouped and moving again after losing nearly 1,000 men killed in Operation Hastings in July.

Losses Over 5,000
The action developed as the U.S. Command disclosed American combat deaths over five years in Viet Nam have passed the 5,000 mark. Seventy-one deaths last week pushed the total to 5,034.

Over-all, 238 of the allies were killed and 42 missing or captured during the week, while enemy losses were put at 1,166 killed and 218 captured. South Viet Nam's armed forces lost 174 men killed and 34 missing. In addition to the 71 Americans killed, 450 were wounded and eight are missing. That compared with 74 killed, 570 wounded and 10 missing in the week of Aug. 28-Sept. 3.

Two Planes Lost
U.S. squadrons pressed the air war on both sides of the border.

U.S. headquarters announced two planes — an Air Force F105 Thunderchief and a Navy A1E Skyraider — were shot down in raids on North Viet Nam Wednesday. A helicopter rescued the Thunderchief pilot. The Skyraider's pilot is missing. These brought to 370 planes the announced losses over the north.

Petition For Manager Firing

SPRINGFIELD (AP)—Municipal employees in this Battle Creek suburb say they will submit a petition to the City Council Monday asking for removal of City Manager Robert J. Hoffman. A spokesman said many employees would not report for work Sept. 25 if Hoffman is not removed. The action reportedly stems from dissatisfaction over working conditions and overtime.

Death Stills Beloved Molly Goldberg Voice

NEW YORK (AP)—The voice was soft and the accent warmly Yiddish. "You hear, Mrs. Bloom," it called across an imaginary Bronx courtyard as the nation's radio and television audience listened in.

The rising inflections and swooping intonation were stilled today. Gertrude Berg, whose gentle portrayal of "Molly Goldberg" made her one of America's best-known Jewish mothers, was dead at 66.

She succumbed to a heart ailment at Doctor's Hospital Wednesday after coming off a summer tour of "Dear Me, The Sky is Falling" five days ago.

Born in New York's Harlem, Miss Berg began her show business career with a failure. Her first radio show "Effie and Laura" was canceled without a second performance.

But in 1929 she returned as "Molly Goldberg" and her heart-warming approach to life's daily problems — a burnt roast, a surly grocer, an infatuated teen-age daughter — won her quick and enormous popularity.

When the 15-minute, five-times-a-week radio series was at its height, it ranked second only in number of listeners to "Amos and Andy." And once when Miss Berg missed a performance and a substitute took her place, the National Broadcasting Co. received 11,000 protesting letters. The show also was a hit during the early days of television.

Her trademark lines like "Enter, whoever," and "If it's nobody, I'll call back" became laugh-getting standards.

So closely was Miss Berg identified with her role that fans would greet her on the street as "Molly," even after the show had been discontinued for years.

Although she played other women on radio and on the stage, the Mrs. Goldberg characterization always came back. When Miss Berg was cast as an American widow with Sir Cedric Hardwicke in Broadway's "A Majority of One," she came out pure Molly.

She is survived by her husband, Lewis Berg, an engineer, two children and six grandchildren. Funeral services will be deferred until after sundown Saturday because of the Jewish New Year. Burial will be at Fleischmann, N. Y.

GERTRUDE BERG, perhaps best known as the "Molly Goldberg" of radio, died on Wednesday in New York's Doctor's Hospital at the age of 66. For many years she was a star in radio, theater and television. Since last Friday she had been in the hospital for treatment of a heart condition. She succumbed to heart failure, a hospital spokesman said. (AP Wirephoto)

Automatic Re-Entry Test Is Successful

MEMBERS OF SWIMMING teams who were to participate in Gemini 11 recovery this morning gather on the deck of the amphibious assault ship USS Guam yesterday after a practice session. Astronauts splashed down in the Atlantic this morning. (AP Wirephoto via radio from USS Guam)

State And Local Leaders Help In Safe Car Drive

WASHINGTON (AP) — The Department of Commerce turns to state and local leaders today for help in setting up an auto safety program which one official said will be designed for long range rather than immediate dramatic results.

It was the second meeting held by the department as it moved to implement a bill signed by President Johnson six days ago.

Invited to today's session were members of the executive committee of the National Governor's Conference, area chairmen of the Council of State Government's transportation committees and executives of the National Associations of City and County Officials.

At a meeting Wednesday the

auto industry agreed to submit, probably by Nov. 1, its suggestions for auto safety standards.

Alan S. Boyd, undersecretary of commerce for the transportation, said Wednesday no miracles should be expected from the program.

"We don't foresee any dramatic changes," he said.

The Commerce Department must draft interim standards for 1968 model cars by Jan. 31.

In developing standards, Boyd said, a distinction must be made between the ideal and the technically feasible. "It's obvious that we're not going to be able to achieve the ideal in a number of areas immediately," he said.

The approach will be to fix a standard which is now technically possible, then upgrade it later, he said.

Boyd said car prices weren't discussed at Wednesday's meeting. The undersecretary said he had no view of whether safety standards could be incorporated in cars without price increases.

A companion bill authorizes \$267 million in grants to states over three years for traffic safety programs.

Ferency Still Wants Debate

DETROIT (AP) — Democratic gubernatorial candidate Zoltan A. Ferency said Wednesday he intends to debate Gov. George Romney this fall "whether Romney wants to participate or not."

Without stating exactly how would arrange it—Romney has turned down offers for radio and television debates—Ferency declared he intends to meet the Republican governor in "open, free and public debate."

The only joint appearances scheduled for Romney and Ferency are Sept. 27 before the AFL-CIO's Committee on Political Education and Oct. 3 before the Economic Club of Detroit.

Ferency said he knows Romney's record, his stands on all major issues, even his philosophy of life.

"If he continues in his refusal to debate me in public, I am going to tell the people where he stands in my public appearances and contrast his position to mine," the Democratic state chairman said.

He said "that will help voters make the well-informed, reasonable choice that Romney is denying them."

Today's Chuckle

Many girls are getting men's wages now — but then, they always have.

Minimum Wage Bill Waits Only Johnson's Pen

WASHINGTON (AP) — Legislation sending the minimum hourly wage to \$1.60 in 1968 — above the government-recognized poverty income level — and extending coverage to eight million more workers awaits President Johnson's signature.

The Senate approved the compromise bill 55 to 38 Wednesday in almost exactly the form the President requested after rejecting Republican efforts to send it back to House-Senate conference for watering down.

Major provisions would: Increase the present \$1.25 minimum wage to \$1.40 next Feb. 1 and to \$1.60 a year later for nearly 30 million workers now covered.

Bring under the act for the first time non-Civil Service federal government workers, some farm workers, nonteaching employees of grade and high schools, and employees of hotels, motels, restaurants, laundries, transit systems, colleges and universities.

Broaden coverage to medium-size retail stores, bringing 1.5 million additional workers under the wage and hour law.

The \$1.60 minimum would bring to \$3,328 the gross income of a covered employee working 40 hours a week for a full year.

That is slightly above the \$3,600 which some government agencies consider the minimum an average family must earn to stay out of poverty.

Eyes Of Texas

The ship's band had a field day. While the helicopter approached the spacecraft, the band played "The Eyes of Texas Are Upon You" and "Somewhere Over the Rainbow."

As the astronauts stepped onto the flight deck, it struck up "Hi Neighbor" and "Anchors Aweigh."

After the brief statements, Conrad and Gordon went below deck for physical examinations. They are to stay on the Guam overnight, flying to Cape Kennedy Friday to begin several days of de-briefings with experts.

For the third straight time, a Gemini capsule landed close enough to the recovery carrier so that television cameras could pick up the descent and splash-down.

Ringside Seats

Thus, once again, television viewers, seeing the picture relayed through the Early Bird satellite, had a ringside seat to one of man's most spectacular sights.

"You're on TV," mission control center told the astronauts as they dropped toward the sea.

"Roger," Conrad replied. The television screen showed the spacecraft floating slowly down on its 83-foot chute. Drifting down nearby was a nose section, which had jettisoned so the parachute could be released.

The carrier, in radio contact with the spacecraft, reported

Please! Help your Escanaba Daily Press carrier boy by having the correct change ready when he comes to collect.

Gemini 11 Has Seven Records For Space Bag

CAPE KENNEDY, Fla. (AP) — Bringing home a bundle of seven space records, the Gemini 11 astronauts rode to a safe pinpoint landing in the Atlantic today to climax a sensational three-day mission.

America's newest heroes, Charles Conrad Jr. and space-walker Richard F. Gordon Jr., ended one of man's most significant space adventures when they splashed into the sea within view of television cameras aboard the aircraft carrier.

They were quickly taken to the carrier by helicopter. "This old world looks pretty good from the deck of this carrier," Gordon told the cheering crew of the carrier.

"But I'll tell you something else, it looks great from 350 miles up."

The smiling, heavily bearded astronaut was talking about Gemini 11's record-breaking trip Wednesday to the "top of the world."

"Good flight!" "We had a very good flight," Conrad said, "and after a couple nights rest we'll be ready to go again."

An electronic chauffeur, an automatic system being tried for the first time, steering them through a blazing re-entry through the atmosphere and parked them just about two miles off the coast.

This was closer than any other American manned spaceship has come to its main recovery ship. Gemini 9 held the previous mark, 3 1/2 miles.

Gemini 9, however, still holds the record for closest to the aiming point — an area in the center of the landing zone.

It missed by only 300 yards, while Gemini 11 was more than a mile off that mark.

However, officials considered this good shooting for a first try at the automatic re-entry system, which relied on the spacecraft computer and guidance system.

Dawn At 10 A. M.

Gemini 11 dropped into the sea at 10 a.m. EDT while sailors packed the deck of the carrier to cheer two fellow Navy men. Conrad is a commander and Gordon a lieutenant commander.

Helicopters were overhead swiftly and dropped frogmen into the water to attach a flotation collar.

Twenty minutes later a helicopter hoisted the astronauts out of the floating spacecraft and deposited them on the carrier.

Dressed in their space suits and flashing broad smiles, Conrad and Gordon stepped onto the Guam's deck.

They were welcomed by space agency and Defense Department officials and then stepped to a microphone to make brief statements.

U.P. Sending 4 Alcoholics For Care Each Week

The new base line report of the alcoholism program of the Michigan Department of Public Health cites growing efforts to cope with the problem in the Upper Peninsula in a special educational project.

It is headed by John Backman, who has his office in the State Office Building in Escanaba and the project, funded with a grant of \$100,000 from the National Institute of Mental Health, is now in its third and final year.

An extension will probably be sought to carry on the work of creating in existing institutions in the Upper Peninsula like its hospitals facilities for the care of alcoholics.

While this work goes forward, the Backman office is dealing practically with the problem of alcoholism in the Upper Peninsula, referring an average of three or four alcoholics a week to alcoholism treatment centers in the Lower Peninsula. These are at the privately organized treatment center at Brighton, at St. Luke's Hospital, Saginaw, Hurley Hospital, Flint and Sparrow Hospital, Lansing. From the western Upper Peninsula alcoholics are sent to Hazelton, a private center at St. Paul, because it is only 200 miles from Ironwood.

Two Weeks Minimum
The usual treatment is 2 to 3 weeks, except that women are apt to stay 4 to 6 weeks. The minimum is two weeks and there is no appreciable difference in results from long and

short term care, and the longer terms usually result from need to treat related problems like poor health.

The public funds for treatment are very limited, said Backman and most of the persons who get treatment pay their own way. All of the U.P. alcoholics referred through Backman's office got to Brighton or Hazelton.

The first U.P. alcoholism treatment center will open at War Memorial Hospital, Sault Ste. Marie, with return of persons now training downstate, to staff it. It is expected to open next month. The second may be in the new medicare facility proposed by Houghton County in the former Copper Country Sanitarium building, Hancock, which the county is taking over from the state. One is also being proposed in the new U.P. Mental Health Clinic projected for Marquette, Delta, Alger and Schoolcraft counties.

Many In State
The State Board of Alcoholism in the Department of Public Health estimates that there are 226,000 alcoholics in Michigan, which has a population of more than 8 million. These people all have drinking problems, but they are not all seeking treatment.

State mental hospitals, by law, must accept alcoholics. The numbers admitted vary with the attitudes of the hospitals and the judges of probate who make the commitments. The setup in the state hospitals for the treatment of alcoholics is not regarded by the State Board of Alcoholism as ideal as the hospitals have what seem more urgent problems in mental ill patients and staffing does not usually include much specialized knowledge in the treatment of alcoholics.

Wirtz To Speak At Soo Sept. 26

SAULT STE. MARIE (AP)—Secretary of Labor W. Willard Wirtz is scheduled to make two speeches here Sept. 26. He will address the opening session of Lake Superior State College in the afternoon and will speak that night at a rally for Rep. Raymond J. Clevenger, D-Mich.

Newsman, Music Are Highlights On Arts Program

MARQUETTE — Lectures by two internationally known news commentators and concerts by the Ramsey Lewis Trio and the American Brass Quintet highlight the first portion of the 1966-67 arts program at Northern Michigan University.

The public lecture-concert series will begin Sept. 24 with the showing of the first of five foreign films and will conclude Jan. 17 with NMU's annual winter band concert. Most programs are free of charge.

David Schoenbrun, former Paris and Washington bureau chief for Columbia Broadcasting System (CBS), will appear at Northern Nov. 21.

Paul Harvey, one of American Broadcasting Corp.'s leading news reporters, will present a lecture at NMU Jan. 6.

The Ramsey Lewis Trio, among the best-selling jazz artists on records today, will present Northern's homecoming concert Oct. 12, while the American Brass Quintet will present a recital Nov. 8.

First lecture of the series will be presented Wednesday, Sept. 28, by Dr. A. L. Rowse, whose 1964 biography of Shakespeare was a Book-of-the-Month Club choice.

The foreign films scheduled to be shown between September and January are: "The Virgin Spring," Sept. 24; "Our Man in Havana," Oct. 8; "The Devil's General," Nov. 12; "Jules and Jim," Dec. 10; and "Bitter Rice," Jan. 7.

Expense Of Sale More Expensive

The "expense of sale" item listed on descriptions of property to be sold at the annual May tax sale has been increased from \$1.50 to \$3 to cover increasing expenses of treasurer's and state offices, Ann S. Villeneuve pointed out today.

The action, under Section 59 of the General Property Tax laws, is effective Oct. 1 and will be listed on all descriptions offered for sale next May, she said.

McMillan

Duff VanZaeren of southern Michigan and Pentland visited with friends in town on the weekend.

Mr. and Mrs. Clyde Harkness and family visited with Mr. and Mrs. David Bryers and family in the Sault on Friday evening.

Mr. and Mrs. Melvin Musgrave, Mrs. Nancy Stepele and Lisa left on the weekend for a week in Grand Rapids. They will also visit their daughter, Mr. and Mrs. Robert Hook and boys.

Jane Kirby visited on Sunday afternoon in Newberry with Mrs. Vicki Hermann.

Fred Leech has arrived home to spend some time with his parents, Mr. and Mrs. William Leech and family after having been employed in Flint.

Mr. and Mrs. Clyde Harkness, Gayla and Debbie, Mrs. Audrey Sanborn, Delbert, Craig and Rachel spent Saturday evening in Lakefield at the home of their parents, Mr. and Mrs. Willard Harkness to help their sister Shirley celebrate her birthday.

Mr. and Mrs. Frank Chaney, former residents, now of southern Michigan are spending their vacation here visiting with friends.

Mr. and Mrs. William Sampson have returned to their home in Detroit after spending a two week honeymoon visiting his mother, Mrs. Evelyn Sampson and family.

DELTA COUNTY DEMOCRATS kicked off their election campaign with a gathering of party workers at the Sherman Hotel Wednesday night with Gery Williams, son of former governor and U.S. Senate nominee G. Mennen Williams as keynote. From left: George St. Louis, county chairman; Williams, Mrs. James E. Anderson of Groos, and Rep. Elmer Erlanson. (Daily Press Photo)

Gemini 11 Has Seven Records For Space Bag

(Continued from Page 1)

the astronauts were in good condition.

They set record after record as they circled the globe 44 times, traveling nearly 1,200,000 miles in 71 hours 17 minutes.

Hands Off

Among their many feats, they flew higher and faster than anyone else, scored man's fastest rendezvous and docking with a target satellite, and demonstrated that two space vehicles can fly formation in space while tied together by a line.

The record setting continued right up to the final minutes, when the astronauts set their automatic pilot and flew a "hands off" reentry — the first ever attempted. The purpose was to evaluate whether man can perform more effectively as a controller or an observer during this critical phase.

Conrad and Gordon fed instructions to their computer and guidance system and then let these two electronic devices do the work after the retro-rockets fired with a jolt 176 miles above the Pacific near the international dateline.

Briefly Told

There will be an immunization clinic Friday from 2 to 4 p. m. at the Delta County Building.

The Bay de Noc Engineers Club will meet at 8:30 p. m. Friday at the Sherman Hotel for the first fall meeting. No reservations are necessary.

Bay de Noc Chorus, meets this evening at 8:01 at Carpenter's Hall. Lowell Sundstrom will report on his "coasting" expedition. Lunch will be served.

Escanaba Police issued traffic tickets Wednesday to Glenn H. Tolleson, Rte. 1, Gladstone, straddling lanes; Richard Christiansen, 1223 N. 16th St., no operator's license; William C. Clark, Wemore, failure to yield right of way; Leroy J. Sexton, 411 S. 15th St., speeding.

Application for marriage license was made at the County Clerk's office by Thomas Henry Bolen and Betty Marie Daley, both of Rte. 1, Bark River.

Hugh D. Harris, owner of State Wide Real Estate, 2209 Ludington St., will attend a broker's meeting Friday at Houghton Lake. The meeting is expected to cover recent developments in real estate marketing and listing.

The Hyde Kings and Queens 4-H club will meet Thursday evening at the Ford River Township Hall at 7. Fair checks will be presented and summer club work discussed. Reports for summer projects are to be completed and the making of the township hall drapes will follow the meeting.

New Phone Books To Be Delivered Here Next Week

New telephone directories serving nine local communities will be delivered to all subscribers beginning Tuesday, Sept. 20.

Thomas J. Straebel, manager here for Michigan Bell Telephone Co., said a new format for emergency numbers is on the inside front cover. It features emblems—such as a flame for fire, a shield for police, a star for sheriff and state police—associated with the emergency numbers.

Straebel urged parents to point out this page to their children to familiarize them with the symbolic emergency numbers.

Straebel said some 11,500 directories will be delivered in Escanaba, Gladstone, Bark River, Cornell, Hermansville, Perkins, Powers, Rapid River and Rock.

Hermansville

Citations Awarded

Hermansville and Stephenson American Legion Posts were presented membership citations by George Beaudoin, Stephenson, 11th district committee man, at the Menominee County Council of American Legion posts meeting at Stephenson.

Representing Hermansville at the meeting were Woodrow Trudell, Julius Halterman, Harold Stecker and Joseph Urlick. Next meeting of the county council is scheduled Dec. 13 at Canby.

Scout Session

A meeting of Boy Scout committees will be held at Camp Seven American Legion clubrooms tonight.

Market Destroyed

German U Boat Sinks At Sea

HAMBURG, Germany (AP)—

A West German training submarine with 21 aboard sank in a North Sea gale Wednesday and one survivor and two drowned crewmen have been picked up, the Navy reported today.

A spokesman said there is still hope for additional survivors because of reports that several of the crew were on deck when the submarine sank.

Naval sources said the 118-foot submarine Hal (Shark) was on the surface when hit by a fierce gale. One of two West German training submarines, she was on route to England, sources said.

The survivor picked up by the British trawler St. Martin was identified as a boatswain named Silberhage. He was rescued more than 12 hours after the boat went down.

The Hal was on route to Aberdeen, Scotland, with her sister submarine, the Hecht, and a tender on a courtesy visit.

Winter Accepts Utah Position

GARDEN — Raymond Winter of Garden, former science instructor at Bay de Noc Community College, has accepted a position as an instructor in the science department of the University of Utah, Salt Lake City.

A graduate of Garden High School, Winter received his bachelor's degree from Northern Michigan University and his master's degree from the University of Wyoming. He also attended the University of Michigan and Michigan State University.

He is the son of Mr. and Mrs. William Winter of Garden.

Data Processing Training Offered

A program to train data processing personnel at the Northern Michigan University Area Training Center has been approved and funded under the Manpower Development Training Act. Persons interested in this training should contact the local office of the Michigan Employment Security Commission on Sept. 21, at 9 a. m. for tests. Acceptable age level is 17 thru 50 years. Applicants should be high school graduates or equivalent, in good health. The training program is scheduled to start on Oct. 3.

First U.P. Splashes Showing

Color Spectacular Nearing

The Upper Peninsula is one of the best fall color show areas in the world and already tourists are cruising its highways for the first samplings of the spectacle.

Full coloration in the upland hardwoods, ranging from the yellows of the hard maples and the orange of the soft maples, is not expected for another two weeks, but already there are enough sample swatches of color to lure the tourists on from vista to vista for new surprises and delight.

One of the great mysteries of nature unfolds in Upper Michigan's woods and forests as the greens of summer give way to the bright colors of autumn.

Nature's Secret

The reasons why some trees turn and others do not and why some turn faster than others is somewhat obscure, botanists say, but it all adds up to scenic delight for vacationers and sightseers.

Those who look at the change of the season through scientific eyes have observed that both the matter of the turning of colors and the falling of the leaves coincide with a definite timetable of nature, related to the shortening of the daylight hours. It is the same kind of timetable that triggers the southern migration of birds and the spawning run of certain species of fish — a mystery which scientists have never been able to unravel.

It seems likely, too, that the widely accepted theory that color changes are induced by heavy frost is probably a myth. Conversely, it appears that such extreme weather has a tendency to reduce the formation of fall color rather than enhance it. Frost, as related to the turning of leaves, is now thought to be more of a coincidence rather than a contributing factor.

Greens Going

An abundance of chlorophyll in wooded plants accounts for Michigan's green summers. Towards late September and early October, nature springs the mysterious mechanism that breaks down the chlorophyll supply and the pigmentation of yellows, browns and reds — already present in the leaves — remains. In some trees, the color chemistry occurs just before the leaves fall.

Added to this mystery is the fact that the turning of leaves in autumn is characteristic, to a greater extent, of American rather than European trees. Plants imported to Michigan soil will turn bright colors or remain green, according to the timetable of their native region. This factor is a dead giveaway as to their origin.

Climate is not necessarily a factor and neither is the relationship of one tree to another, for many unrelated trees turn identical colors while others of the same family will turn different colors.

Magnificent Beauty

Whatever the cause, color tour enthusiasts find Michigan's fall season is resplendent with nature's most magnificent finery.

From the rocky crags of the Copper Country to the sandy beaches of Lake Michigan, the Upper Peninsula in autumn is one gigantic color tour.

Many communities and regional groups have established posted color trails where motorists follow marked signs which take them through the more outstanding color areas. Michigan is well supplied with a variety of trees making it the fall showplace of the nation. With 85 kinds of soft and hardwood species it has a greater offering than any other state. It has more types of trees than all of Europe.

Where Fancy Leads

Flaming scarlet and crimson mingle with chermes and ambers over a background of greens supplied by spruce, pine and other firs. Low growing sumac, berry bushes and scrub oak add to the riot of color that is Michigan in autumn.

Rambling through Michigan's wooded countryside on a fall weekend can prove a rewarding experience for those who find enjoyment in traveling where their fancy may take them. For those who prefer planned color trips, the Michigan Tourist Council offers the newly-revised Michigan Autumn Color Tour Guide containing 24 suggested routed color tours through various sections of the entire state. Copies are available without charge by writing the Michigan Tourist Council, Lansing, 48926.

Still Need Rooms

Homeowners who have rooms for teachers who will be attending the teachers convention Oct. 6 are asked to call the Chamber of Commerce at 786-2192.

Health Center

COLDWATER (AP) — Branch County supervisors have decided to ask voters Nov. 8, to finance a \$29,800 addition to the Coldwater Community Health Center.

County Collects Delinquent Taxes

Delinquent taxes totaling \$15,524 were collected in Delta County during August, according to a statement released by the County Treasurer's office.

Of the total, \$4,551 went to the county general fund, \$50 to the Delta-Schoolcraft Intermediate School district, \$552 to Bay de Noc Community College, \$3,906 to the City of Escanaba, \$1,379 to Gladstone, \$18 to Garden and \$5,065 to townships.

Township breakdown was Baldwin, \$289; Bark River \$427; Bay de Noc, \$184; Brampton, \$51; Cornell, \$304; Ensign, \$397; Escanaba, \$465; Fairbanks, \$4; Ford River, \$845; Garden, \$467; Maple Ridge, \$163; Masonville, \$146; Nahma, \$171, and Wells, \$1,076.

Hospital

R. Bruce Carlson of 529 S. 16th St., Escanaba is a patient in St. Francis Hospital. His room is 310.

Tyron Named Weighmaster

LANSING—Joseph F. Tyron, district weighmaster at Grayling, has been assigned as District Weighmaster for the Upper Peninsula at Escanaba, the State Highway Commission announced today.

Born in Manistee, Tyron was first employed in highway testing and research in Ann Arbor. He served 16 years as District Weighmaster in New Buffalo, Kalamazoo and in Grayling.

He will replace Robert Sloan, a former Chief Weighmaster in the Upper Peninsula.

Hardware

More than 200 retailers and suppliers have registered for the Michigan Retail Hardware Association's Fall Convention and Trade Show on Sept. 18-21 at Boyne Falls.

Flat Rock PT Club Starts New Year

The Flat Rock Parent Teacher Club held its first meeting of the school year, Sept. 13.

Paul Cowen, Gladstone High School music department, introduced a clarinet choir who presented several numbers. He will be the new band director replacing Robert Anderson who moved from this area. He gave a talk on the band program.

Superintendent Leo J. Brunelle introduced the teaching staff and welcomed two new teachers, Mrs. Guy Ohman, kindergarten, and Mrs. Gerald Brady, first grade. More teachers will be added to the faculty at the end of the first semester when the four new classrooms would be ready. Mrs. Arthur Tourangeau Jr., works as a teacher's aide this year.

Donn Haakanson, faculty member, announced plans for an adult hobbycraft class to be conducted one evening a week for 12 weeks at the school on Monday evenings.

The room count was won by Mrs. Guy Ohman's morning kindergarten class.

Refreshments were served by the teachers and P.T.C. officers.

Registry

The University of Wisconsin Marinette County campus at Marinette has enrolled 300 students, 173 males and 126 females, of whom 186 are freshmen. Upper Peninsula students are from Menominee, Stephenson, Iron Mountain, Manistique.

A pound of grapes contains about 435 calories.

Protecting No. 1

When people are asked to name the resources of the Upper Peninsula they recite a sort of litany of patriot economics that ticks off our fresh waters, our people, our forests, our minerals, our soils and our other obvious treasures.

Almost never does anyone mention the Upper Peninsula's beauty because Peninsulans stand too close to it to see it with the vision of persons who live in great cities which have trees mostly in the parks and where the sky is a narrow hunk of blue on top of a street. We have the contempt of long familiarity and we also have for so long yearned for the things like industry which have made the cities hideous and rich that we have neglected appreciation of the things for which the city folk yearn.

In the long view, however, the beauty of the Upper Peninsula may well be judged its greatest resource, the unique thing that distinguishes it and makes it a place which can draw people from afar. There can be no question that it will be very high in the list of our resources if it is not at the very top. And this being so it becomes imperative that the Upper Peninsula—and indeed all Michigan—value the Peninsula's beauty properly and take effective measures to protect it.

Already there has been a serious erosion of roadside beauty in the Peninsula. There is no effective public sense of esthetics yet which opposes the desecrators, but this will inevitably come. The Peninsula will eventually awaken to the truth that it is privileged to make itself unattractive to visitors but that if it indulges the privilege it needn't be surprised when they travel elsewhere.

This refusal to acknowledge the cash value of our natural attraction has been a factor, of course, in the slow progress of development of the area as a recreation center. When the hosts don't believe it, why should the guests?

But inevitably this situation is changing and there are many signs that the change is accelerating. Increasing outdoor investment in recreational properties is a strong new element in the change. It could be further speeded by serious state and area planning for development that has as a top priority the preservation of the Peninsula's beauty.

For the enjoyment of this beauty by the greatest number of persons there must be highways to give access to view, but the highway is also the No. 1 threat to beauty. Government has become the great poobah of political protest against the despoliation of nature, but it is the great offender itself with its ruthless, nuts-to-beauty approach to construction.

A Washington official, viewing the Sault's ship canal and the desirability of making the viewing of its fascinating marine traffic easier for the public, said: "It's too bad that the Corps of Engineers are in charge. They'd build a warehouse shutting off the public's view of the locks entirely if they wanted a handy storage." And in Milwaukee there is a cry against the Corps' removal of sludge from the river there and dumping it in Lake Michigan to further pollute that already ill lake.

"No force is harder to reckon with than the concrete juggernaut," says a spokesman for the National Audubon Society in describing the difficulty that conservation efforts are having with the highway builders. The Upper Peninsula needn't go elsewhere; for example, it has only to look at the Michigan Highway Department's action near Witch Lake on M-95. A highway relocation there was routed across a lake, filling it in with a causeway and leaving the stoppered end a pitiful slough. This is official vandalism and the government shouldn't be permitted to get away with it any more than a private individual or firm.

The Peninsula is coming into an era in which it will build some scenic highways. The work should be approached with great caution and its controlling interest in preservation of beauty should be a strong influence in all our highway planning.

The Doctor Says:

Doctor Can See Cell Details

By DR. WAYNE G. BRANDSTADT

We have become so used to the electrocardiograph and other pieces of modern electronic equipment it is hard to imagine how we ever got along without them. The electron microscope has made it possible to see the internal structure of the bacteria which formerly were seen as mere dots through the ordinary light microscope. The conventional microscope can magnify an object about 2,500 diameters, compared with a magnification of 100,000 diameters by the electron microscope. The latter has made it possible to visualize the many viruses whose presence formerly was known only as through their behavior. Some of these have a thickness of only 1/20,000,000 of an inch. In addition to these agents of disease, the electron microscope has made it possible to study

human cells in greater detail and to examine the chromosomes and genes that determine our hereditary characteristics.

The electromyograph measures the electric potential of muscles. When muscles have been paralyzed this machine helps your doctor to determine how much to expect in the way of rehabilitation. These and other electronic devices are adding to your doctor's understanding of disease. Other equipment not yet invented is sure to help your doctor in the years to come. Yet, valuable as they are as tools for diagnosis and treatment, none is as important or as perceptive as that age-old electronic machine—your doctor's experienced brain.

Q—What is paratyphoid? What causes it and what are the aftereffects?
A—Of the many germs classed as Salmonellas (germs that cause one type of food poisoning), three were originally called paratyphoid organisms because the disease they caused was similar to that caused by the closely related typhoid germ. The disease virtually starts with vomiting, diarrhea and fever. As with typhoid, after the victim recovers he may be a carrier of the germs.

Q—Does a head cold cause an increase in white blood corpuscles?
A—Many infectious cause such an increase but the common cold is not one of them.

Questions And Answers

Q—What type of musical instrument is the koto?
A—A long Japanese zither harp of 13 silk strings.

Q—Which is the largest of Egypt's pyramids?
A—The Pyramid of Giza erected by Cheops. According to Herodotus, 100,000 men were employed for 20 years in building it, while 10 years were occupied in transporting the stones.

Q—Who first proclaimed "Good Friday" a legal holiday?
A—Good Friday was made a legal holiday by Constantine the Great in the early fourth century and is still so observed in England, Ireland, Canada and certain parts of the United States.

"I Wouldn't Exactly Call It a Perfect Fit!"

Ignorance Takes Heavy Toll

State Drownings Increase

By LEE SMITH

Greasy calm, murky sky — an old-fashioned storm brewer. A late November morning. Hy Dahke and I cruising along the west shore at the mouth of the Detroit River in Hy's tug, Sea Wolf.

We overtook a small, flat-bottom row boat, painted bright red, carrying three men and a heap of decoys. No equipment for sneak-shooting, no layout. Where and how they planned to shoot we couldn't figure.

The boat was badly overloaded. No more than three inches of freeboard, and around the outboard in the stern, a curl of water higher than the gunwale.

Hy checked down, hailed them and said that a heavy blow was due. They waved a bottle, shouted obscenities and kept on out into Lake Erie.

As the storm broke, out of

the southeast, we were sneak-shooting in the lee of Tawie Island and even in that sheltered cove had all the chop we cared to deal with. We could see steep surf rolling beyond the foot of the island. A rescue attempt would be futile. The three hunters in their overloaded skiff couldn't last 10 minutes in the smother of breaking seas. We dia run out and scan the Lake Erie shoals with binoculars, but sighted only white-caps and flying spray. The last of the three newsboys was recovered in the spring.

What caused that grim day to pop into memory was a six-line news item; a 37 per cent increase over last year in Michigan drownings. By mid-August, State Police had recorded 237 water deaths.

It might be supposed that after Labor Day the drowning toll would diminish. Yet in one stormy duck season 14 hunters drowned between Lake Erie and Lake Huron.

Snug and dry in Hy's living room that evening, we gave thought to the three witless victims and special thought to their families. We called the toll of drownings we had known about, with one outstanding factor obvious in them all — ignorance. Ignorance of boats, of weather, wind and wave.

Jim Kelson, at the mouth of the Clinton, has rescued scores of boaters in dire trouble on Lake St. Clair. But never a native, never a regular, never an experienced hunter or fisherman. It wouldn't be so bad if

only the fool-hardy got into trouble, but too often they take innocent victims with them.

Of 237 Michigan drownings in less than eight months, 104 happened to waders and swimmers; waders who couldn't swim, swimmers who over estimated their ability or who dived in shallow water.

Numerous reasons are listed to account for the appalling record of highway casualties: one reason pops up in the great majority of water accidents. Ignorance of the fundamentals of safety on and in the water.

More laws to promote safety of any kind have not been too effective. Regulations concerning life-preservers, running lights, fire extinguishers for pleasure boats certainly have value. It could be that state legislation applying to waterways of any size — anywhere, would help. If all rental boats were conspicuously labeled with their safe maximum loads an important lesson might be impressed on public consciousness.

An increase of 37 percent in Michigan drownings gives a touch of bitter irony to our license plate slogan.

Now with the season coming up when storms are common and when the combination of ice-cold water and thick layers of clothing lessen the chances of survival, it is regrettable that all who venture forth in small boats can't somehow be inoculated with the hard-earned water wisdom of the professionals, such as our commercial fishermen.

China's Liu A Realist

By RAY CROMLEY

WASHINGTON — (NEA) — If my recollection of the personalities of the Red China leaders in Yenan 21 years ago serves me right, the new shuffle in Peking has demoted rigidly doctrinaire Marxists and promoted Marxist pragmatists.

Liu Shao-chi, ousted as Mao's heir-apparent, in Yenan days was a rigid, uncompromising man. He was serious, unsocial and unapproachable. He was un-Chinese in his rigidity. Liu believed in a literal interpretation of Marx and Lenin and in a literal interpretation of Communist theory generally without regard to realities or practical problems.

Years later, Liu reportedly was the moving spirit behind Red China's Great Leap Forward and the hasty shifting of Red China's farmers into unworkable communes.

The purge has promoted men of Red China's intelligentsia — educated men with a middle-class background.

Because they are pragmatists, their being of the intelligentsia will not prevent them from humbling large numbers of the intelligentsia and promoting propaganda and work programs glorifying manual labor and attesting to the superiority of the peasant — for practical political reasons.

Most of the promoted men have been associated with the group of specialists who believed that while it was essential to be Red, it was also important to be expert professionally.

The demoted Liu Shao-chi was a leader of the group which said that being 100 per cent Red was all that matter-

ed Liu was suspicious of experts.

The purge promoted men with a background in the Soviet Union. Most men in this group have a history of study, training, travel or residence in Russia.

Moscow over the past several years has secretly backed this group. Their anti-Moscow statements may be intended to free themselves of a pro-Russian taint. Since they're strong-ly Chinese, they also fear Russian nationalism in Asia. They have a strong desire to beat out Russia and take over leadership of the international Communist movement. Whether they move closer to or further from Russia will depend on which course they believe will best help Red China. It won't depend on their ideology.

This group of strong men, as seen in Yenan, was strongly Communist. But they were not ones to push a program that was failing. They believed it sometimes essential to bend in order to live to fight another day and win in the long run.

These men were deep believers in the importance of propaganda. That is, for psychological reasons they often talked a much more rigid game than they practiced.

In Yenan, while convinced of the importance of morale and convictions in winning guerrilla wars, in private talks these men made it clear they knew the importance of modern weapons and weren't taken in by their own propaganda.

If they reason now as they did in Yenan, they will think a long time before confronting the United States head-on in South Viet Nam — unless they think the United States is vacillating.

Letters To Ann Landers

The Press Egg-Heads Should Stick To Teaching

Contributors are welcome. They must be signed with name, address and phone number of writer and must be post paid. The right to condense letters is reserved.

RACING
I, as a local and interested racing fan, would like to "take my hat off" to Norbert Beauchamp, for his very informative letter printed Sept. 8. I believe his letter was straight and to the point bearing only facts.

In reading the letter sent by William LaMarch, I am confused as to the rule he refers to in the PSA (Page 5 - Rule 3) which reads:

"It is the duty of all drivers, car owners, and mechanics to bring to the attention of the officials any unsafe equipment or practice; or any major rule infraction of any car or driver. The officials can not possibly check every car on every night of competition."

I, in no way see the connection between this rule and the rule of pushing, which was apparently never established.

Since Norbert Beauchamp and his brother purchased modified No. 4 in July, he has not been part of Bob Iverson's pit crew. As far as being prejudiced, any racing fan has preconceived feelings about individual racers.

Consequently it was Bob who was suspended and disqualified for pushing Bill Ansell, who unfortunately was in a skid when Bob touched his back tire. After he had won the race, Gerald Richer (in the pits) smashed into the back of Bob's car and again into the side.

Certainly he should have been disqualified for damaging Bob's car, however, the gripe committee ignored Bob's repeated complaint at the meeting following the races. The next Saturday two members of the gripe committee advised that another complaint be made against Gerald which was submitted but the decision was overruled.

In all sincerity I believe I have stated the facts and hope this letter will not be misinterpreted.

Walter Johnson

Dear Ann Landers: When will the public educators learn that their function is to EDUCATE. Period. Character building and social adjustment should be handled in the home. Parents know their children better than the teacher knows them—especially when there are 30 to 35 students in the class.

What gives these egg-heads the right to take over our children as substitutes for the children as never had!

Teachers tell our children about sex, Freud, politics and morals. Our children are confused enough without having two sets of authorities to guide them—one at home and one at school.

Please advise teachers to stick to their jobs—teaching and grading students, and to lay off the psychiatry and so-called "character molding."

TIME FOR A CHANGE
Dear Time: You sound like a parent who is having trouble with her children—and I'm not surprised. The size of that chip on your shoulder indicates there must be some wood higher up.

You are right when you say teachers have enough to do without doubling as walling walls, leaning posts and substitute parents—and the fact is they don't go looking for these added responsibilities. They inherit them by default, my friend.

Many children who can't communicate with their parents find a sympathetic ear at school. And thank heaven for it, Mother. You should be grateful.

Dear Ann Landers: I am male, under 30, with a three-year-old motherless son. My wife died last year. Her folks took the boy with the understanding that I would take him back when and if I remarried.

Several months ago I became interested in a woman I will call Constance. I told her all about the boy and she said she would love to raise him. Two weeks ago we became engaged.

Last night Constance told me she has decided she would never be comfortable with another woman's child. I love my son and want him with me. I also love this woman. Do you think I could be happy with her under these conditions?—MICHIGANDER
Dear Gander: No—and it's too bad you picked such a

CAN'T GET ANYTHING WORTHWHILE UNLESS YOU PAY FOR IT, I ALLUS SAY...

Time To Count Bats In Belfry

By HAL BOTTLE
NEW YORK (AP) — How's your sanity index?
In a wacky world that seems to be getting wackier, it is only common sense for a fellow to pause now and then and count the bats in his own belfry.
A certain degree of balminess is acceptable in anyone. As Mark Twain pointed out, when you realize that everyone is a little bit crazy, the mystery of the world stands explained.
For the benefit of the perplexed, here's a handy home guide to help you figure out your SQ—Sanity Quotient. Ask yourself the following questions: Do you repeat yourself like a parrot after the third martini at a cocktail party?
When your neighbor buys a new car, longer and more expensive than the one you own,

do you have terrible an impulse to crash into his garage in the dead of night and chase a service in his car's shiny fender and let the air out of his tires?
If a restaurant waiter treats you with condescension, do you then cravenly overtip him in order to win his good will?
Are you afraid to leave an office party without dancing at least once with the boss' wife, even though you know she fox trots like a lame walrus?
When your wife isn't looking, do you sometimes succumb to the temptation to look through her purse or read the letters she gets from her lady friends?
While playing poker for keeps, do you have to lean over backward to keep from leaning over sideways and sneaking a look at the cards in the adjoining player's hand?

Is it your firm opinion that the guy next door cheats a lot more on his income tax returns than you do?
When the gals at the office get their heads together, do you sometimes feel that they are gossiping about you?
Are you convinced that it never rains except when you have on a freshly pressed suit, and that the only time you spill gravy on a necktie is when the necktie is brand new?
If you hand a bus driver a dollar bill, do you feel he invariably will take out his own grudge against the world by spitefully giving you 20 nickels?
At least once a week do you have a wild urge to punch one of your own spoiled offspring in the snoot?
Do you feel that your luck is so lousy you couldn't win at a

racetrack even if all the horses but your choice were doped?
Do you find that the more money you earn the more worries you have?
Does everyone around you seem nuttier and more absurd than they did ten years ago?
Well if you have answered all the foregoing questions in the affirmative, you're as healthily negative about life and its problems as 85 per cent of the population.
To put it bluntly, you're normally abnormal.
Fifteen runs were scored in the first inning of a game between Brooklyn and Cincinnati on May 21, 1952. This was one run shy of the record of 16 for a first inning set in 1894 by Boston and Baltimore.

U-M Phasing Out Its Housemothers

ANN ARBOR (AP) — The University of Michigan is phasing out housemothers in men's dormitories starting this fall. John Feldkamp, U-M housing director, said too many of the 24 housemothers "had trouble relating to the boys" in their charge. Feldkamp said none of the women would be fired, but their jobs would be eliminated as they retire or resign. Feldkamp said graduate students and married couples may be used to replace housemothers.

Bond Vote Oct. 3

LIVONIA (AP) — The Livonia School Board will place a proposed bond issue of \$23 million before voters Oct. 3. The board said that, if approved, the issue would not result in a tax increase.

Auto Scrap To Up-Grade Ore

WASHINGTON (AP) — The Bureau of Mines has moved toward a commercial-scale demonstration of its new process to use auto scrap in processing low-grade iron ore. It invited bids for supplying two ore crushers to be used at a plant soon to be built on the Mesabi Range in Minnesota. The plant will convert the low-grade ore called nonmagnetic taconite into a magnetic form suitable for conventional processing into blast-furnace feed. The bureau said the use of auto scrap to make the ore magnetic has been proved technically feasible in its laboratory and pilot-plant tests.

This ore is abundant on the Mesabi Range but goes unused because it is not magnetic. The bureau has a 1968 target date for the demonstration plant to begin operation, in a step to work out economies of the process.
The large, cone-type crushers will be used to reduce inch-thick chunks of the low-grade ore to increase its surface area and thus facilitate reaction of the ore with the auto scrap.
Mixed with scrap in kilns and heated, the taconite releases some of its oxygen content to the scrap metal and in so doing is converted to magnetic form. It is then ready to be concentrated by magnetic-separation methods into blast-furnace feed.
Successful operation of the plant would provide a new high-tonnage market for discarded cars and offer an abundant new source of iron from nonmagnetic taconite deposits, the bureau pointed out.

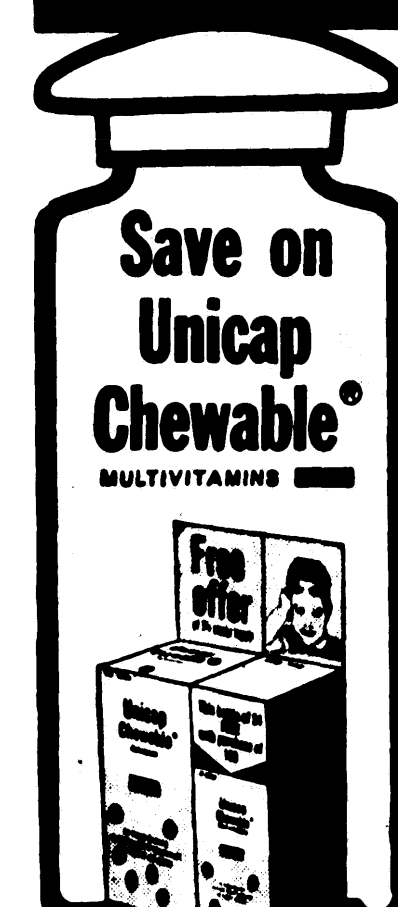

THREE girls were named top winners in the Michigan Press Association's statewide "Bring 'Em Back Alive!" traffic safety poster contest. The poster at the top of the above photo won first place. It will be reproduced and distributed across the state by Automobile Club of Michigan prior to Labor Day. Shown with their winning posters are from top: Kathy Harmer, 17, Grand Blanc; Marcia Ferrand, 13, Troy; and Ann Friend, 12, Frank-enmuth.

Satellite Drops Film Packages Back To Earth

NEW YORK (AP) — A new maneuverable superspy satellite is taking photos of Soviet military bases and dropping the film packages back to the United States, the Daily News Says.
In a copyright article from Cape Kennedy, Fla., the paper said the satellite may have a television system which can be monitored from the ground.
The News said the satellite is an improved version of a type which has been photographing Soviet and Chinese military bases for more than five years — the so-called Smos program.
It said the new satellite, first launched on July 28 from Vandenberg Air Force Base in California, has a camera so powerful it can photograph objects as small as several feet across from 100 miles up. The film packages are dropped on signal from the earth and caught in nets by planes near Hawaii, or fished from the ocean if the planes miss.
The satellite also is equipped with rockets which can change its orbit on ground signal, the News said.

Heads Union
EAST LANSING (AP) — Dr. Eugene Jacobson, a Michigan State University professor of psychology, is the new secretary-general of the International Union of Psychological Science, which has members from 35 nations.

MORE MINI Business all the time. Now it's the mini bike showing up on London streets for the convenience of mini-skirted young ladies, such as Pamela Blaise, who ride along at an electric-powered 25 m.p.h. with no danger of skirts riding up.

Candidates In State CC Quiz

LANSING (AP)—Fifteen candidates for major statewide office will be interviewed by law experts and businessmen today in a day long Public Affairs Conference sponsored by the State Chamber of Commerce.

The conference opens tonight with a dinner meeting, to be addressed by Gov. George Romney. His Democratic opponent, Zoltan Ferenzy, will speak Thursday.

Missing from the roster of candidates will be ex-Gov. G. Mennen Williams, Democratic candidate for U.S. Senate, who "has been ordered by his doctor not to attend the conference," said Donald Booth, director of the chamber's program.

Williams is recovering from surgery which he underwent last month.

Candidates for secretary of state, attorney general, the Michigan Supreme Court and the State Board of Education will be asked to speak and be subjected to questioning.

The two supreme court incumbents — Chief Justice Thomas Kavanagh and Justice Otis Smith — and the Republican challengers — Thomas Brennan and Meyer Warshawsky — will be questioned by three law school deans.

The deans are Charles King of the Detroit College of Law, Arthur Neef of Wayne State University, and the Rev. Paul Harbrecht, SJ, of the University of Detroit.

Democratic Secretary of State James Hare and Democratic Atty. Gen. Frank Kelley will appear on the same program with Lawrence Lindemer, Republican attorney general candidate, and George Washington, Republican candidate for secretary of state.

Harry Hall, president of the State chamber, will conduct an informal interview of all four candidates.

U.S. Sen. Robert Griffin, R-Mich., will address the closing session and board of education candidates will deliver 10-minute speeches throughout the day. They include Democratic incumbents Dr. Leon Fill and Donald Thurber, and Republican challengers Dr. Leroy Augenstein and James O'Neil.

Tri-County Youth Offer Cartoonist

The Tri-County Youth for Christ will present "Sketch" Erickson in a series of programs on the musical listening habits. "What's Cooking on your Radio" makes use of color drawings augmented with tape recorded examples of standard "pop," and sacred musical forms. Erickson is a commercial artist and a music major.

The first meeting will be at Stephenson High School Friday Sept. 16 at 7:30. The second and third meetings will be at Calvary Temple, Marinette on Saturday, Sept. 17 at 4 p.m. and 7:30.

Donates \$50,000

ROGERS CITY (AP) — The United States Steel Foundation has donated \$50,000 toward an addition to Rogers City Hospital. The foundation said it would match up to \$125,000 raised in the community. Total cost is estimated at \$177,125, with the federal government expected to furnish a major share.

Elects Trustees

NEW YORK (AP) — Eisenhower College has elected four new members to its board of trustees. This brings to 24 the number of trustees on the board.

Germfask

On Wednesday afternoon, Sept. 7, a group of about 40 persons gathered at Brown's Restaurant here to greet Mrs. Lenore Romney, wife of the Governor. She was accompanied by Mrs. Phil Ruppe and Mr. and Mrs. Charles Varnum.

It was announced that a sale of Shift Dresses and Fall Hats will be held Friday and Saturday, Sept. 16 and 17, from 10 to 12 a. m. and 1 to 4 p. m. both days in the basement of St. Theresa Church, sponsored by the Church ladies group.

Quite a large group of young folks enjoyed a record hop and lunch at George Swisher's garage after the cement floor had been completed. Shirley Galt of Minnesota and Karen Keyser from California, Vista Workers, returned to Marquette for their permanent assignments.

Mrs. Mary Kelley, Community Action Agent, attended an Area Representation meeting at Escanaba.

Mrs. Cecil McEachern, returned from Schoolcraft Memorial Hospital at Manistique where she was a patient for several days.

Mrs. Charles Holbrook and Mrs. Harland Ackley motored to Sault Ste. Marie, Tuesday.

Mrs. Maxine Heath is visiting at the home of her daughter, Mrs. Harold Erickson and family, at Traverse City.

THESE ARE THE five pilots who have been picked to start training for the manned orbiting laboratory expected to be launched in 1968. Photographed at Edwards Air Force Base, Calif., they are, left to right, Capt. Robert F. Over-

myer, USMC; Capt. Henry W. Hartfield Jr., USAF; Lt. Robert L. Crippen, USN; Capt. Karol J. Bobko, USAF; and Capt. Charles G. Fullerton, USAF.

Resource Group To Talk Farming In Lake States

The Northern Great Lakes Resource Development Committee will hold its fall meeting at Bemidji, Minn., Sept. 20-21. Measures for bolstering the agricultural economy of the area will headline the program.

The group is a citizens' committee dedicated to the development of 81 counties in northern Minnesota, Wisconsin and Michigan. The committee grew out of the Duluth Land and People Conference in September, 1963.

The committee meets quarterly to consider opportunities for development. It makes recommendations to the states, the federal government and other concerned groups. The group will hear statements by leading authorities in three states on the potential of dairy, potato and vegetable production, processing and marketing operations of the area.

Michigan members of the committee are: Harold Dettman, St. Ignace, chairman; Roy Howes, Copemish; Ed Mawby, Suttons Bay; Ed Gould, West Branch; Roy Jensen, Escanaba; Fred Hahne, Manistique.

State To Honor Pettibone Corp.

The Michigan Week 1966 Product of the Year Award dinner honoring the Pettibone Michigan Corp.'s award winning Cary-Lift will be held at Baraga on Wednesday, Oct. 5 at the Baraga National Guard Armory beginning at 6:30 p. m.

This event is being sponsored by the Lions Club of Baraga and the Greater Michigan Foundation, according to E. E. Erickson, general chairman and Region I chairman of Michigan Week.

Dr. Edgar Harden, state chairman for Michigan Week 1967, will preside and Dale Sellers, senior vice-president of the Bank of the Commonwealth, Detroit, and the Greater Michigan Foundation, will make the presentation.

Boost To 5%

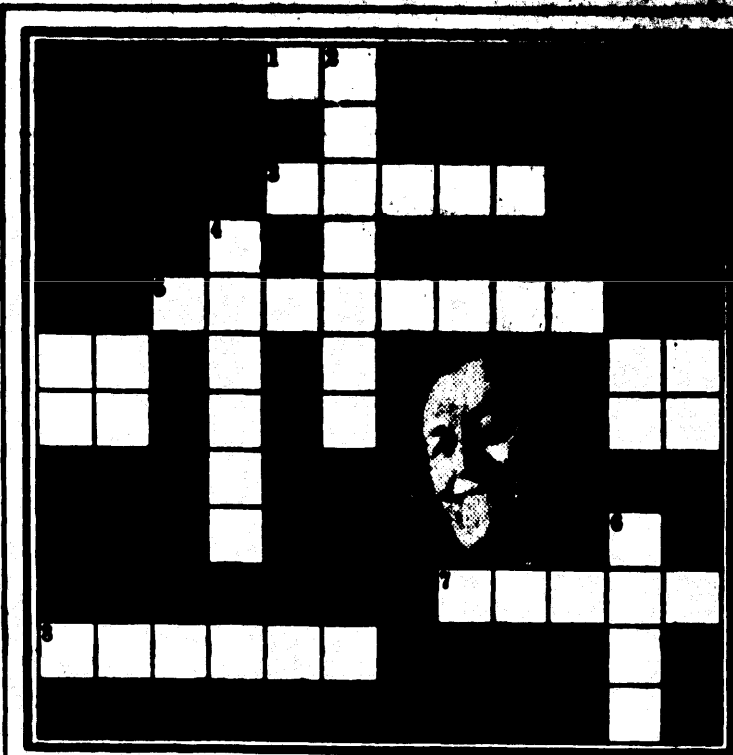

DETROIT (AP) — Standard Federal Savings of Detroit Wednesday raised dividends to 5 per cent effective Oct. 1 on regular passbook savings. Standard Federal has paid 4 1/2 per cent. The new rate is the highest in Detroit in more than 30 years among savings and loan associations.

Educator

William J. Dickinson has been appointed assistant director of continuing education, to head up the adult education program, at Lake Superior State College of MTU, announces Chancellor Kenneth J. Shoultice. A former dean of the college and professor of history at Cumberland College, Lebanon, Tenn., Dickinson assumed his duties Sept. 1.

Course

Earl H. Closser will be the instructor of a course entitled Real Estate Business I which is part of the University of Michigan statewide certificate program in real estate at Marquette High School beginning at 7 p. m. Monday, Sept. 19.

what is Coffee Mill Flavor?

It's fresh-ground flavor you can't get in a can.
Fresh-ground flavor you do get in A&P's whole-bean
Eight O'Clock, Red Circle and Bokar Coffees.

You see, once the coffee bean is ground,
the flavor begins to fade...
even when it's vacuum-packed.

That's why, when we at A&P
buy the finest coffees we can find,
we bring them to you still in the bean.
And we custom-grind them
exactly right for your coffeemaker...
right in your A&P.

Takes a little extra work, but we're happy to do it.
That way we can be sure you'll enjoy the full, fresh taste
of A&P's Coffee Mill Flavor.

Are A&P Coffees a good reason for shopping A&P?
They're one of many.

ROUGH RIDERS for charity, these English school children are off in the Donkey Grand National at Brighton, England. The donkey derby was staged to raise funds for charities.

Youth Center Opens Monday

Club 314, Escanaba's Youth Center, will open for its 30th season on Monday, Sept. 19. It was announced by the Recreation Department. The general public is invited to attend the opening and become familiar with the facilities and operation of the city-sponsored Center.

Last year's weekly schedule has been changed for the new season and Wednesday nights will be reserved for young people of college age. The elderly citizens of the community will hold their social meetings on Tuesday evenings, with the Senior Citizens and Golden Age Club taking over on alternate weeks.

Boys and girls in high school are eligible to register as Club 314 members and to take part in the activities on Monday, Thursday and Friday nights. The program for the young people includes pocket billiards, table tennis, basketball, dancing, speed bag punching, weight lifting, television viewing and general socializing.

General activities will be conducted under the supervision of Francis Lueneburg, veteran member of the recreation staff. Part-time leadership in the dance room will be provided by Irene Pirlot and supervision of the game room will be in charge of Erwood Slade, member of the local public school system.

Danrel Bengry, presently on the teaching staff of the Junior High, will be in charge of the basketball program. The hours for the young people will be from 6:30 to 9:30 in the evening, the same as last year.

The new schedule follows:
Grades 8 to 12 - Monday, Thursday, Friday nights.
College Age - Wednesday night.
Elderly People - Tuesday night.

Chicago Meet To Study Big Lakes Pollution Problems

WASHINGTON (AP) — A conference on water pollution problems of the Great Lakes and the Great Lakes states will be held in Chicago today and Friday, the Interior Department announced. The department said the conference was called at the request of Vice President Hubert H. Humphrey.

Secretary of the Interior Stewart L. Udall will be the keynote speaker. Moderator of the sessions will be James Quigley, commissioner of the Federal Water Pollution Control Administration.

Other speakers will include Rep. John Bland, D-Minn., and former Indiana Governor Matthew Welsh, now U.S. chairman of the International Joint Commission.

Several hundred state and local officials from New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin, and Minnesota and from the Canadian government are expected to attend.

School Meet

Over 650 school superintendents will attend the 37th annual conference of the Michigan Association of School Administrators at Mackinac Island Sept. 18-20. MASA is a department of the Michigan Education Association.

Charles B. "Bud" Wilkinson, former head coach at the University of Oklahoma, will speak at the Tuesday luncheon.

Other guest speakers include Dr. Ira Polley, state superintendent of public instruction, and William G. Milliken, state lieutenant governor.

Rabbi On Xavier College Faculty

CINCINNATI, Ohio (AP) — Rabbi Albert A. Goldman has been appointed as the first Jewish faculty member of the theology department of Xavier University, a Jesuit Roman Catholic school here.

Pollution Control

DETROIT (AP) — Detroit Edison Co. has announced a \$10 million air pollution control program. The company said \$2.7 million would be devoted to curbing fallout from its Connors Creek power plant in Detroit.

Auto Workers Pay Is Hiked

By A. F. MAHAN
DETROIT (AP) — Postal envelopes of hourly rated auto workers will be something like \$3.5 million to \$4 million fatter this week than last.

The reason: automatic annual wage increases effective Labor Day will show up for the first time Friday, payday for most of them.

By far the largest group affected is the United Auto Workers, which represents 643,800 hourly rated employees in U.S. plants of General Motors, Ford, Chrysler and American Motors. Over the next year UAW members will gain at least \$174,000,300, or an average of \$270.40 each.

There are several other unions with contracts carrying built-in wage boosters similar to the UAW's although the effective escalator dates of some lag a month or more.

GM deals with 16 unions other than the UAW, and the largest of these is the International Union of Electrical Workers.

It has 25,000 members in four plants and its increases come simultaneously with those of the UAW. The IUE boosts amount to \$130,000 weekly or \$6.7 million a year.

All salaried employees of the automakers also will begin getting an extra \$10 quarterly this month.

Under contracts negotiated by the United Auto Workers in 1964 and running to next Sept. 8, its members got a raise of 2.8 percent or 7 cents hourly, whichever was greater.

They also got an additional two-cent hourly bonus payable over the last year of the three-year contracts, plus another two cents an hour on a cost-of-living escalator in the contracts.

Cost of living allowances, which ride up or down on the index of the U.S. Bureau of Labor Statistics, also are passed on to salaried personnel. That's where their added \$10 quarterly comes from.

The 2.8 percent or 7-cent boost for the hourly rated came automatically under what is known as the annual improvement factor clause.

This is supposed to give workers a share of cost savings effected through technological advances such as automation.

Similar boosts will be upcoming in October for 200,000 UAW members employed in the aerospace and agricultural implement industries.

The same is true for UAW-represented workers in many supplier shops. These include some 8,000 in Detroit tool and die shops whose principal customers are the automakers.

And some 47,000 employed in Canada by GM, Ford and Chrysler will get identical raises in November or December, unless a downturn in the Canadian cost of living index shaves an indicated two cents more hourly there.

Before the new raises became effective, the Bureau of Labor Statistics figured the average hourly wage for the automotive industry as a whole was \$3.22. This estimate does not include overtime, shift premiums or fringe benefits.

For the workers at the \$3.22 average the boosts would represent a 13-cent hourly increase. However, the boosts will range from 11 cents to 19.6 cents, the top going to a skilled workman making \$4.85.

Candidates are not allowed to apply directly for a Nobel Prize. Each name must be offered in writing by a qualified person.

Catherine Swanson Wed To Dwight M. Gilroy

Miss Catherine Marie Swanson of Escanaba became the bride of Dwight Martin Gilroy of Manistique during a 3 p. m. ceremony performed Saturday, Aug. 20 at the Bethany Lutheran Church in Escanaba.

Performing the double ring ceremony was the Rev. Dr. Walfrid Nelson.

Parents of the couple are Mr. and Mrs. O. A. Swanson of 617 S. 14th St., Escanaba and Mr. and Mrs. B. Gilroy of 140 Western Ave., Manistique.

The bride chose for her wedding a floor length gown of silk organza with white lace appliques on the bodice and skirt. Her shoulder length veil of net was caught by a three tiered crown of pearls and she carried a bouquet of miniature white carnations surrounded by pink garnet roses.

Maid of honor for her sister was Barbara Swanson of Marquette and bridesmaids were Karen Peterson and Valerie Oslund in the role of junior bridesmaid was Carrie Oslund. Olive Green, Cream.

They were attired in gowns of cream, bonded crepe and olive green brocade styled with empire waistlines. The gowns were designed and sewn by Valerie Oslund. Their flowers were yellow pompons with variegated ivy foliage.

For her daughter's wedding, Mrs. Swanson wore a light blue bouclé suit with matching accessories and Mrs. Gilroy selected a plum colored knit suit also with matching accessories.

The wedding reception was held following the ceremony in

the church parlors. Assisting were Evelyn Clause and Lorraine Oslund, at the silver service: Roberta Malloy, circulating the guest book; Esther Malloy, cutting the wedding cake; Sue Virgo and Jill Peterson, serving punch and Sally Raymond and Judy Sauve opening wedding gifts.

Home in Flint
When the couple left on their honeymoon trip to Wisconsin the bride wore a navy blue print dress with navy accessories and a corsage of blue tipped carnations. They now make their home in Flint.

The bride attended Bay de Noc Community College and took a secretarial course at Northern Michigan University. Mr. Gilroy also attended Bay de Noc College and is presently employed at General Motors in Flint.

Holy Family Altar Society Plans Bake Sale

The first fall meeting of the Holy Family Altar Society of Flat Rock was held last night with Mrs. Gerald Carignan presiding.

Father Thomas Andary led the members in the Bishop Baraga prayers.

Plans were made for a Bake Sale to be held Sept. 25 with proceeds going for Retreats. Coffee and rolls will be served along with the bake sale. Mrs. Art Tourangeau Jr. is general chairman and church area chairmen are Mrs. Fred Germain, Mrs. Donald Roberts, Mrs. Lawrence Chouinard, Mrs. George King, Mrs. Herman Bittner and Mrs. Harry Lancour.

Mrs. Gerald Carignan read a portion from the Bible. Lunch was served by the officers and games were played. Winners were: Mrs. David Carlson, Mrs. Ed Solis, Mrs. Bruce McGuigan and Mrs. Hubert Irving. Mrs. Fred Germain won the guest prize.

KEEP MAKE-UP FRESH
Always keep your make-up fresh. To prevent cracking, touch the fingertips to the fine lines under the eyes on occasion during your evening out. That keeps the skin under the eyes moist and smooth.

MISS JULIE Ann Butryn of Bark River Rte. 2 exchanged marriage vows Saturday, Sept. 10 with Gary Donald Gagne during a double ring ceremony performed at 12 noon at St. Francis Xavier Church in Spalding. The Rev. C. J. Mark officiated at the nuptials. The bride is the daughter of Mr. and Mrs. Louis Butryn and Mr. Gagne is the son of Mr. and Mrs. Mose Gagne of Rte. 1 Powers. A reception for 700 guests was held at Potvin's Fireside Room in Schaffer. Following a wedding trip to Niagara Falls the newlyweds will reside in Milwaukee. (Gordon Nelson Photo)

Area D.A.R. Members Attend Regional Meet

Mrs. Soren Johnson, Regent of Lewis Cass Chapter, Daughters of the American Revolution, Mrs. Margaret Norton and Mrs. Millet Caldwell will attend a regional meeting at the Weatherlane Inn, Charlevoix on Tuesday, Sept. 20, 10:30 a. m.

On Monday, Sept. 19, the State Regent, Mrs. James V. Zeder, and State Board members will be present at a dedication of memorial pines in the Cadillac area, a series of pines given by DAR members in memory of their loved ones.

The DAR members request every one to fly their American flag during Constitution Week, Sept. 17-23. The purpose of the observation of Constitution Week is to recall the true significance of the events that took place in Sept. 17, 1787 and to revitalize an appreciation of our heritage.

The Michigan Daughters of the American Revolution are to be honored by the visit of their President General, Mrs. William Henry Sullivan, Jr., of New York, on Sept. 29 in Lansing. She will greet the daughters and give a talk on "The Goals and Aims of the DAR during the coming year and during the past 75 years."

It will be her only visit to Michigan during her three year

Mrs. Roger Patrow Speaks About Life In Ethiopia

Members of Escanaba Business and Professional Women's Club, meeting at the Sherman Hotel last evening, heard Mrs. Roger Patrow give an interesting talk on Ethiopia where she and her husband spent three and one-half years while he was director of a secondary and junior college there.

Pastor and Mrs. Patrow lived in a city of about 10,000 people located approximately 30 miles from the capital of Ethiopia. With a long history dating back to Biblical times, Ethiopia is a land of contrasts. There the very new and the very old can be seen side by side. Using slides to point out the contrasts, Mrs. Patrow showed pictures of families with some members dressed in native clothing and the younger members dressed in western clothing.

Of interest to homemakers is the fact that the native dress is made of a cheese-cloth like material that is drip-dry, never requires ironing and can be either warm or cool. There is the same contrast in housing, where modern homes exist side by side with more primitive homes. In the rural areas, people still live in the ancient one room huts made from mud and straw with grass roofs.

Ethiopia is a land of beautiful scenery with a mountainous terrain and an elevation of 6,500 feet. Mrs. Patrow compared the climate to that of Southern California with an average annual temperature of 70 degrees and a rainy season lasting about 3 months.

A recipe brought back by Mrs. Patrow is a highly seasoned stew-like dish made from chicken, red peppers, onions, tomato sauce, butter and several spices. It is placed in a huge pancake made from fermented dough and served from a wicker container.

Mrs. Patrow stated that much progress has been made in Ethiopia in the last few years with more women becoming educated, improved medical care and more roads being built. In the past, where one doctor served about two million people, there are now several doctors. The government is working hard to improve education, medical facilities, sanitation, etc. Mrs. Patrow concluded her talk with a selected showing of slides.

Guests at last night's meeting were Mrs. Orville Butts, Mrs. Ruth Sedenquist, Mrs. Kay Spiker and Mrs. Marian Sullivan.

term of office. Representatives from all 55 chapters of Michigan will be present.

Births

LARABY — Ale and Mrs. James J. Laraby Jr. of Landstuhl, Germany are the parents of a son, Derrick James, born Sept. 14. The infant weighed 4 pounds and 6 ounces at birth. Mrs. Laraby is the former Maria Gansert of Landstuhl, Germany and Ale Laraby is the son of Mr. and Mrs. James J. Laraby Sr. of Rte. 1, Gladstone.

Church Club Plans Hayride

The Church Club of the Central Methodist Church will hold a hay-ride on Saturday, Sept. 17. Couples attending are requested to meet at the church building on S. 2nd St. between 8-9:30 p. m. The directions to the site of the hay-ride. After the hayride there will be a hot-dog and marshmallow roast. Co-hosts will be: Glenn and

Donna. To start and help with lettuce, set out the hay-ride heart. Pack a soft cheese mixture into the center of the lettuce, wrap tightly and chill thoroughly. Cut in wedges and serve as a salad with French dressing.

Kathleen Anne Bell, Glenn Fleetwood Wed

Bouquets of golden pompons and yellow gladiolus adorned the altars of St. Patrick's Church in Escanaba for the 12 noon ceremony uniting in marriage Miss Kathleen Anne Bell and Glenn A. Fleetwood on Saturday, Sept. 10.

Hearing the solemn exchange of vows at the double ring nuptials was the Rev. James Pepin. Soloist for the wedding, Miss Susan Garrard, sang, "Ave Maria," and "On This Day Oh Beautiful Mother," as the bride placed a bouquet of champagne carnations at the altar of the Blessed Virgin.

The bride is the daughter of Mr. and Mrs. John H. Bell of 1122 1st Ave. S., Escanaba and parents of the bridegroom are Mr. and Mrs. Glenn Fleetwood of 2100 Ludington St., Escanaba.

Peau de Soie
The bride selected for her wedding an all white gown of delustered peau de soie fashioned with a one piece coat which closed at the neckline and flared to a full chapel sweep, covering her sleeveless gown. The gown, trimmed in heavy Swiss lace, featured a scoop neckline and a modified A-line floor length skirt.

Clusters of peau de soie trimmed with crystals centered the fabric bow which held her bouffant elbow length veil of imported illusion. She carried a yellow throated white orchid on a white missal and a crystal rosary, gift of the bridegroom.

McMillan

Mrs. Nora Mark was admitted to the Helen Newberry Joy Hospital in Newberry on Sunday evening for medical treatment.

Sam Zimmerman arrived home Thursday evening after receiving medical treatment in Chicago and Iron Mountain.

Briefs

Mr. and Mrs. Jay Tanner, Mrs. Maude Tanner, Kim, Brenda and Bunny Musgrave visited on Monday evening in the South with Mr. and Mrs. Jay D. Tanner and family. Maude remained with her son and family for a visit.

Mrs. Dwight Harkness and friend of Wamego, Kan., Mrs. Dorothy Foster of Newberry visited on Sunday with Mr. and Mrs. Clyde Harkness and family.

Mrs. Roby Brown, Mrs. Max Brown, Kris and David were business callers in Marquette on Friday. Max Brown arrived home after receiving his discharge from the service.

Her only jewelry, pearl and gold earrings, were a gift of a close friend.

Maid of honor for her sister was Jonnie Bell of Escanaba and bridesmaids were Paula and Glenn A. Fleetwood, sister of the bridegroom and Sheila Plohe, Green Bay, a close friend.

The maid of honor was attired in a one piece floor length gown of deep green, monks-cloth linen with a flying back panel and square neck bodice. The bridesmaid's gowns were in gold and styled identical to the maid of honor's. Their headpieces were cabbage leaves with short veils and they carried cascading bouquets of olive green tipped carnations and golden bronze pompons.

Flower Girl

Little Jeannie Alken of Escanaba was flower girl and she wore floor length dress of green linen with a matching triangle scarf and was presented a small pendant, a gift of the bride. She carried a wicker basket filled with green tipped carnations and bronze pompons.

Serving as bestman was Tom Fisher of Marquette and groomsmen were Mark Bell, brother of the bride and Dale Horchner of Milwaukee. Seating the guests was Bill Eis Jr. of Escanaba. In the role of ring bearer was Jimmie Liss, three year old.

For attending her daughter's wedding, Mrs. Bell selected a three piece plum double knit suit with robin's egg blue shell and trim, plum accessories and was presented a rose pink cymbidium orchid corsage.

Mrs. Fleetwood wore a deep rose sheath dress with a matching jacket trimmed with satin piping. Bone shoes and hat completed her attire and she was presented a beige tone cymbidium orchid corsage.

Reception

The newlyweds greeted over 250 guests at the reception held in the afternoon and evening at Marco's Starlite Room. Assisting with duties were Becky Cochran, at the punch bowl; Cindy Carlson, presiding at the silver service; Suzanne LaPorte, opening wedding gifts; Mrs. John E. Anderson, cutting the wedding cake and circulating the guest book was Kris Nyquist.

Following a wedding trip to an undisclosed destination the couple will reside in Marquette.

The bride is a graduate of Escanaba Area High School and Mr. Fleetwood, also a graduate of Escanaba Area High School, is a junior at Northern Michigan University.

Mrs. Glenn A. Fleetwood (John Duca Photo)

Judy Mae Lee Bride Of Robert E. Berry

PTC. Robert Edward Berry, of white carnations. Mrs. Manson of Mrs. Dennis Mannila of Germfask, took Miss Judy Mae Lee, daughter of Mr. and Mrs. Kenneth Lee of Gulliver for his bride in a candlelight wedding ceremony performed by Rev. Carl Shambien, Saturday, Sept. 10, in the Germfask Methodist Church. Mrs. Ruth England played traditional wedding music.

The attendants were Louis Berry, a brother of the bridegroom, Donald Davis, a cousin of the bridegroom. Ring bearer was Bruce Berry. Maid of Honor was Miss Sally Lee of Gulliver and Miss Rosalie Diller of Manistique was bridesmaid. Jenny Lee, young sister of the bride, was the flower girl.

Chantilly Lace

The bride, escorted to the altar by her father wore a long white gown of Chantilly lace featuring a fitted basque bodice, long tapered sleeves, scalloped neckline and a slightly bouffant skirt. Her elbow length illusion veil was attached to a crown of petals trimmed with rhine stones and pearls. Her jewelry was a strand of pearls, a gift of the bridegroom. She carried a cascade bouquet of white carnations and red roses with ivy.

The maid of honor and bridesmaid wore identical baby blue dresses of satin with lace over blouses, matching petal hats with bluish length veils and carried bouquets of pink and white carnations.

Mothers' Attire

The bride's mother wore a two tone green knit suit with beige accessories and a corsage

of white carnations. Mrs. Manson wore 2-piece deep rose knit dress with beige accessories and white carnation corsage. The bridegroom's maternal grandmother wore a navy street length dress and matching accessories.

A reception was held for 150 guests at the V.F.W. Hall at Germfask at 7:30 p.m. with a dance following. Music was furnished by "The Dells," of Manistique. After a brief honeymoon the bridegroom will return to the Marine base at San Diego, Calif., and the bride will continue her practical nurse course at St. Francis Hospital at Escanaba. They are both graduates of Manistique High School.

Fall Smorgasbord

RAPID RIVER — Sunday, Sept. 18 marks the date for the "September Smorgasbord" sponsored by Rapid River's St. Charles Borromeo Altar and Rosary Society. The smorgasbord will be served at the church parish hall from 11 a. m. to 3 p. m. Menu features will be turkey pot pie, ham loaf and homemade bread and rolls. Affair chairman is Mrs. Elizabeth Melling.

Each month the women of St. Charles have a fund raising project, which is planned by the various Altar Society committees. A coming event will be a unique Croatian Dinner.

If you serve whipped cream with Pecan Pie, don't sweeten the garnish! Pecan Pie is quite sweet enough as is.

Bark River

Nancy M. Vlau, daughter of Mr. and Mrs. John Vlau, Rte. 2, Bark River, has enrolled in Stratten School, Milwaukee, for nine months of training.

MAKE HAIR SUBORDINATE

Avoid trying to make your hair the most outstanding feature. Doing this takes away from the over-all appearance. Elaborate hairdos can overpower your face and personality.

MOTHER AND DAUGHTER beauty queens are the pride of the H. W. Rutledge family of Vincennes, Ind. June Rutledge, 20, right, is Miss Indiana for this year's Miss America Pageant at Atlantic City, N. J., Sept. 7-10. She's the first daughter of a former contestant on record. Mrs. Rutledge, left, was Miss Kansas in the 1937 Miss America judging.

Customs Service Buried In Paper

WASHINGTON (AP) — and improve the U. S. balance of payments picture. During the first six months of last year the returning American brought back an average of about \$50 to \$55 worth of foreign goods. Now the average is just over \$40.

The law which went into effect in the latter part of last year revised the duty free exemption from the previous \$100 total at wholesale value — which customs figured was about \$165 worth of retail goods. Tourists must pay a dual tax on spirits they bring into the country in quantities of more than a quart — a \$10.50 revenue tax per gallon plus a duty ranging from \$1 to \$1.75 depending on the type of spirits.

Customs said the extra paperwork resulting from last year's law is only a drop in the bucket, however, when compared with the service's overall increase in workload.

In the last 20 years, the service said, the number of persons arriving in the United States has increased more than 207 per cent, the number of customs entries by 300 per cent, customs collections by 478 per cent. On the other hand, the number of customs employees has climbed by only 4 per cent.

The Voice of America is the radio network of the U. S. Intelligence Agency.

A written declaration is filed when duty must be paid.

Actually, customs officials said, last year's law is working "remarkably well" in trimming the amount of goods purchased abroad by the increasing number of traveling Americans.

That is the real purpose of the law — to cut overseas buying

Briefly Told

Ralph Johnson, 52, Cornell, and Leo Pepin, 54, Chicago, lodged in the Marquette County Jail to begin a 10-day sentence after each failed to pay fines of \$25 and costs of \$6.90 in Justice Burkmann's court at Gwinn. The men were arrested by State Police on a trespass complaint signed by Jerome DeBacker, Cornell, and pleaded guilty to the charge.

State Police issued traffic summonses Wednesday to Patricia Thill, Fayette, and Robert Brisco, 1506 Minneapolis Ave., no registration or proof of insurance; Pearl Anderson, Rapid River, and Calvin Moreau, Brampton, speeding; and Harold Smith, 420 S. 18th St., Escanaba, failed to stop for stop sign.

Supt. Raymond Godmer of the Delta-Schoolcraft Intermediate School district announced today there will be a display of about 3,000 text books and library materials in the multi-purpose room of the Rapid River elementary school Monday. School officials, teach-

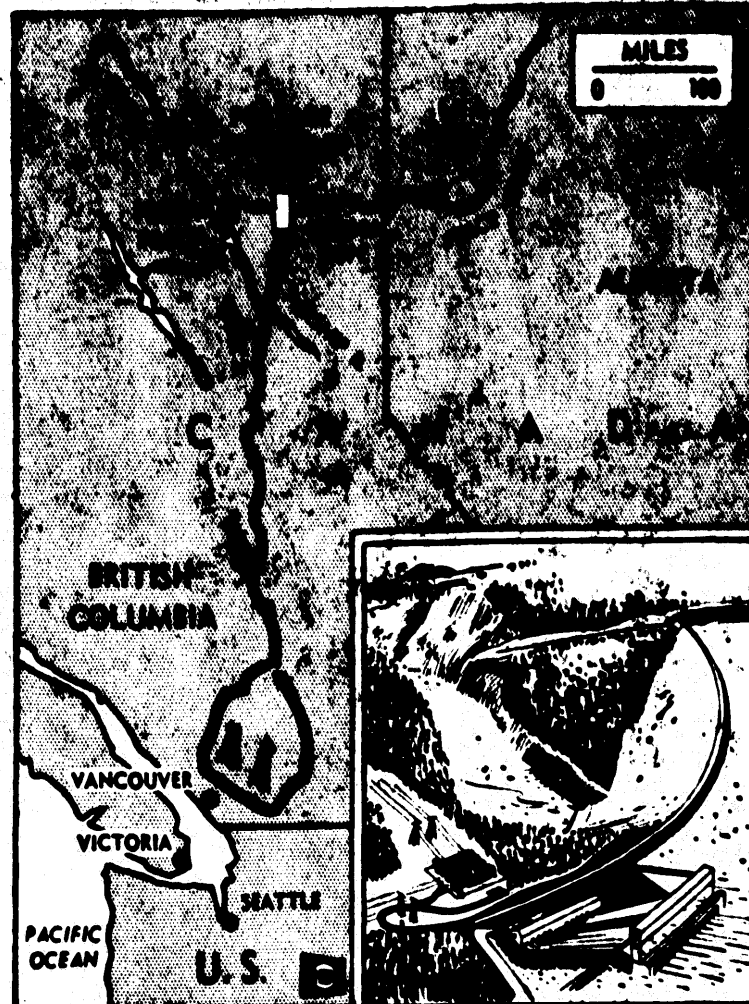

In Service

Airman Victor L. Harris, son of Mr. and Mrs. Frank C. Harris, 208 S. Sixth St., Gladstone, has been graduated with honors at Amarillo AFB, Tex., from the training course for U. S. Air Force personnel specialists. Airman Harris is being assigned to Nellis AFB, Nev., for duty with the Tactical Air Command. A graduate of Gladstone Public High School, he attended Milwaukee School of Engineering.

Personals

Mr. and Mrs. Herbert Norton, of Hudson, Wis., are visiting with his mother, Mrs. Charles Norton, Bay Shore Road.

Gen. Ulysses S. Grant acquired the nickname of "Unconditional Surrender" after the Battle of Fort Donelson. ers. PTA representatives and parents are invited to inspect the materials.

POWER FROM THE NORTH will be flowing into British Columbia's Vancouver area when the huge Portage Mountain Dam on the Peace River is completed. Begun in 1961, the dam tops one of the most valuable hydro-electric generating sites in North America. The completed dam will be a mile long and a half-mile thick at the base with the largest underground powerhouse of its type in the world, three times larger than a football field. A lake 170 miles long and 70 miles wide will be backed up and power will reach Vancouver through a 574-mile transmission line.

Ask \$7,000 For Elephant Damage

LANSING (AP)—A Lansing man and his wife are suing for \$7,000 damages which they say were caused by "Little Rajee," the 14-ton baby elephant which threw a gigantic temper tantrum three years ago before being shot to death.

The 16-year-old "baby," part of a promotion at a shopping center, went berserk, rampaged through a department store, then bolted into a nearby residential area.

Mr. and Mrs. Hamilton Foley, in a suit against Arlan's Department Store, claimed damage to fences, fence poles, clothes lines and clothes poles, among other things.

DO YOU TAKE VITAMINS AND STILL FEEL TIRED?

Here's How To Feel Stronger Fast

Have you been feeling tired and rundown lately? And do you take vitamins yet still feel tired? If so, your trouble may be due to iron-poor, tired blood. Vitamins alone can't build up iron-poor blood. But GERITOL can! That's because just 2 GERITOL tablets, or 2 tablespoons of GERITOL liquid contain 7 vitamins plus twice the blood-building iron in a whole pound of calves' liver.

In only one day GERITOL-iron is in your bloodstream carrying strength and energy to every part of your body. Check with your doctor, and if iron-poor blood is making you feel tired, take GERITOL, liquid or tablets, every day. Feel stronger fast—in 7 days—or money back from GERITOL.

*Due to iron-poor blood

BERRY'S WORLD

"There's been another foul-up somewhere — I've been kicked out of the 'President's Club' because I haven't sent my \$1,000!"

Bishop Myers To Decide Soon On California Post

DETROIT (AP)—The newly elected Episcopal bishop of California said Wednesday he did not expect to be as flamboyant as his predecessor, the Rt. Rev. James A. Pike, and added: "Nobody could be."

At the same time, however, the Rt. Rev. C. Kilmer Myers said he and the Rev. Mr. Pike had been classmates, were close personal friends and he "would consider our positions on social issues relatively the same."

Bishop Myers, 47, is suffragan (assistant) bishop of the Episcopal Diocese of Michigan. The son of a postman, he once was a priest in New York's slums, and came to Michigan in 1964. Immediately before his elec-

tion by Michigan Episcopians he had been executive director of the International Urban Training Center for Christian leaders in Chicago, an ecumenical institute created to train clergy and lay workers for crowded and neglected city areas.

His district within the Michigan diocese has been Wayne (Detroit) County and much of his ministerial work has been in the inner city and in "convincing suburban people by contributions of money and talent to help people of the city organize themselves and become a part of the democratic process."

Bishop Myers said he expected to reach a decision "certainly within the next week or two" on whether to accept his election as California bishop. He said there was a possibility he might go there beforehand.

Constable At 85

SUPERIOR, Ark. (AP)—Alan Ansett, 85, has won another term as town constable. Ansett, who has been a deputy constable since 1964, defeated his opponent in Tuesday's Democratic primary, and has no opposition in the general election.

BASIC SUBJECTS

Lewis' new school of thought on looking great

\$9 to \$13

The girls who count on looking her best counts on a wardrobe with variety as the keynote. For example, balance great classics with groovy swingers. Build up a collection of basics in all their current new forms — suits, jumpers and a lively crew of separates. All out with the this-minute looks of '66, we predict a lively season of fashion success for the gal going to school or the gal with a job.

sketched: Swingy separates wool skirt, plum/white, 8-16, \$10. Square-neck poor-bay ribbed wool top, plum, 34 to 40, \$9.

Six Miners Die In Coal Fields

ST. CLAIRSVILLE, Ohio (AP)—Efforts to rescue three missing miners were abandoned early today and the burning coal mine was sealed in efforts to halt the fire in which they died.

Entrances to the mine were ordered sealed after rescue of the miners alive was called "hopeless" and they were officially pronounced dead by the Bureau of Mines.

The end of round-the-clock efforts by about 80 would-be rescuers came about 7 a.m. after attempts to put out the fire with a foam-making machine failed.

Large auger machines had drilled into the area where the

three were believed lost, but this also failed.

At least twice, the drill apparently dropped below the vein, striking solid rock.

Given up for dead in the Morgan Mining Co. works, 15 miles southwest of here near Bethesda, were Tom Terretti, 43, of Wheeling, W. Va.; William Adams, 33, of near Barnesville, Belmont County, and Keith Spicer, 22, of Dillonvale, Jefferson County.

They were lost in a fire that broke out Wednesday morning by a snapped power cable.

In another coal mine accident, near Pottsville, Pa., a search team brought out early today the bodies of three men killed by a cave-in.

The men died Wednesday when the roof of a pit operated by the Lengel Coal Co. gave way and buried them under tons of coal and rock.

The victims were Russell Diebert, 40; John Hatchon, 50; and Stanley Gravish, 51.

Romney Signs Billboards Bill

LANSING (AP)—A bill to control billboards and protect an estimated \$12 million in federal highway grants to Michigan was signed into law by Gov. George Romney Wednesday.

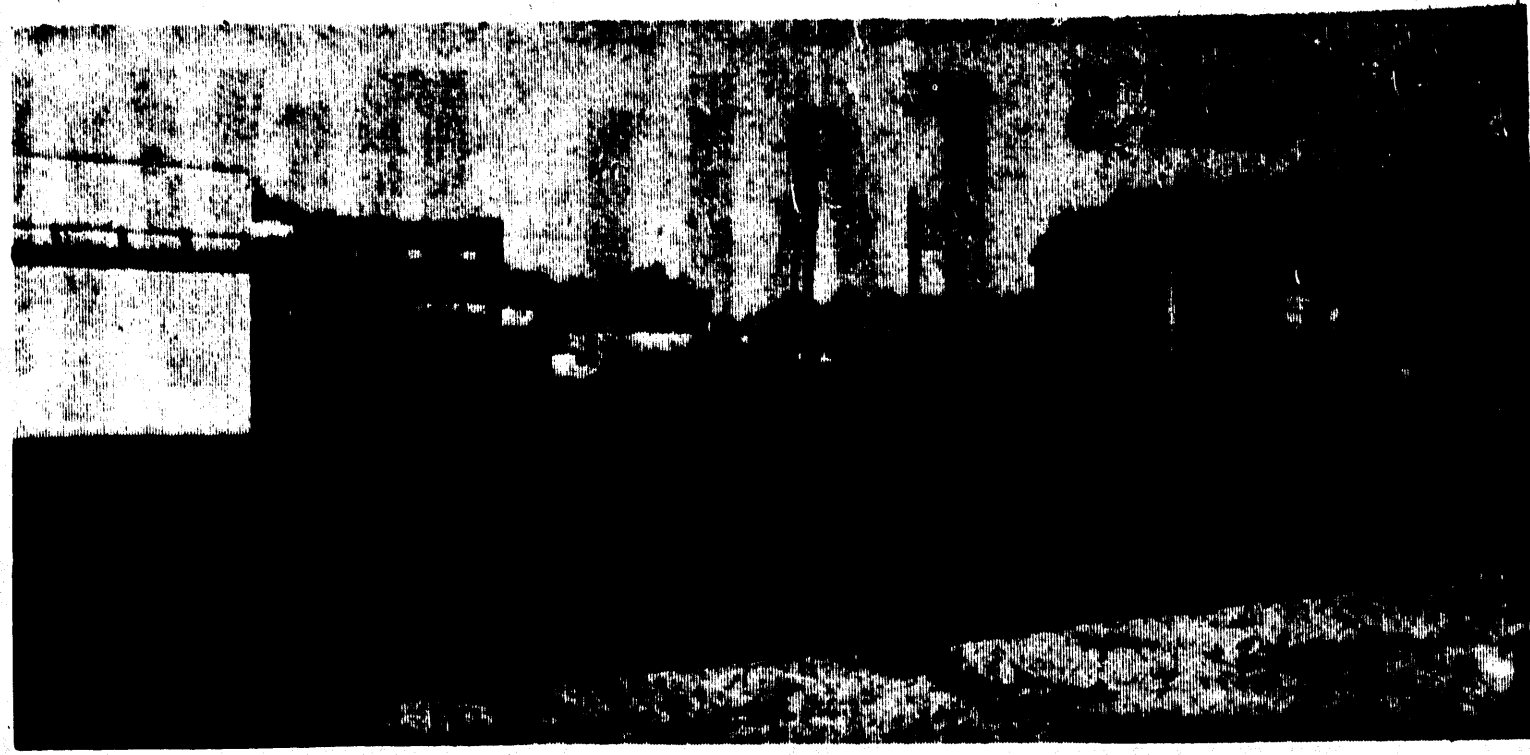

The bill, intended to meet federal requirements of the Highway Beautification Act of 1965, prohibits billboards within 660 feet of the right-of-way of any highway that is in any part financed by the federal government.

"That involves virtually every state highway in Michigan," a Highway Department spokesman said.

Any state that does not have such legislation on its books by Jan. 1 will be in danger of losing 10 per cent of the federal funds available for highways. In Michigan that means about \$12 million, the department said.

There are several major exceptions to the billboard restrictions. These include commercially and industrially zoned areas and signs on the property of the business being advertised, if that falls within the 660-foot limit.

Another exception would be a business that abuts the highway right-of-way. It would be allowed to post signs for three-quarters of a mile in each direction.

NORTHERN MOTOR CO., 1419 Ludington St., is blacktop paving its auto lot on 1st Ave. S. and 15th St. Just west of its large garage and salesrooms, shown at back right of top picture. The company removed three houses and several barns from the properties to clear the site for development as a sales lot. The paved area covers 28,000 square feet. The bottom picture shows part of the same scene as it appeared before start of the clearing and development project.

Sales Soared In 2nd Quarter

WASHINGTON (AP)—Sales of U. S. manufacturers soared to \$141 billion during the second quarter of this year, up 14 per cent from the same period of 1965.

The Federal Trade Commission and Securities and Exchange Commission, reporting this Wednesday night, said profits after taxes reached \$8.4 billion, up 16 per cent from the same three-month period a year earlier.

For the first six months of this year, sales by manufacturing firms shot to \$270.9 billion, a 13 per cent increase over the corresponding period of 1965, the two agencies said, while profits after taxes rocketed by 16 per cent to \$15.6 billion.

At the end of June, the report showed, manufacturing firms had assets of \$381 billion, a gain of \$12 billion for the second quarter and \$42 billion over the level a year earlier.

Hear Rail Plan On October 10

NEW HAVEN, Conn. (AP)—An Oct. 10 date has been set for a federal court hearing on the New Haven Railroad's detailed merger plan with the Penn-Central system.

U. S. Circuit Judge Robert P. Anderson, in charge of the New Haven's affairs since the railroad slipped into bankruptcy in 1961, set the hearing date.

After the plan is cleared by Anderson, it will be submitted to the Interstate Commerce Commission by Oct. 27.

Stockholders in the railroad and representatives of the four states served by the New Haven—Connecticut, Massachusetts, New York and Rhode Island—are expected to attend the hearing.

The railroad's trustees said their plan aims at preserving all essential services now provided by the New Haven and its subsidiaries.

A merger of the Pennsylvania and New York Central Railroads has been approved by the ICC, scheduled to become effective Sept. 30, with the provision that the passenger and freight operations of the New Haven be included.

A number of smaller eastern railroads have filed suits to block the merger.

State Backs School Bonds

LANSING (AP)—The State Treasurer's office will pay the principal or interest on school bonds if a school district defaults, Treasurer Allison Green said Wednesday.

Green confirmed for the record a joint statement made by his office and Atty. Gen. Frank Kelley last fall and an attorney general's ruling handed down last month.

The joint statement said such a procedure probably would be followed.

The opinion said a school district would have to rely on the School Bond Loan Fund if its revenues were insufficient to meet its bond payments, and that the treasurer would have to honor a bond holder's demand.

The presence or lack of such backing makes a substantial difference in the amount of interest a school district pays on money it borrows through bonding, the treasurer's office said.

Kelley's opinion and Green's statement are primarily for the information of bond purchasers, Green said, adding:

"No school district is in default and none is expected to be in default."

Golf, as it is played today, originated in Scotland.

Amoss Picked By Port Authorities

DETROIT (AP)—W. J. Amoss, director of the Port of New Orleans, Wednesday was elected president of the American Association of Port Authorities.

The action, taken at the group's 55th annual convention, was confirmed at the annual banquet Wednesday night.

Outgoing President J. D. Holt of Savannah, Ga., presided at the installation.

Other new officers: Guy Beaudet, manager of the Port of Montreal, 1st vice president; Roger Gilman, director of planning and development for the New York Port Authority, 2nd vice president; and Rae Watts, director of the Port of San Francisco, 3rd vice president.

Claim Arson

BATTLE CREEK (AP)—Monday's fire at a building formerly used as a warehouse by the Olive Corp. "definitely was arson," Fire Chief Don A. Burrows says. A 20-by-40 foot section of the building was destroyed.

Govt. Book Aid Proposed

State Library Use Skids

Daniel Skeen, program director of the Economic Development Administration, will address the Upper Peninsula Library Branch in Escanaba at 1 p. m. Monday, Sept. 26 on the possibilities of library development in the U. P. with aid from EDA.

The meeting will also review other possibilities of library development.

In preparation for the meeting Keith Clement, librarian of the Branch, which serves the entire U. P., has reported that its circulation slipped in the fiscal year ending July 1.

The branch library had a circulation of 17,697 books in its first year of operation in

1956-57 and has moved rather steadily upward since then, except for reductions in 1962-63 in 1964-65 and again last year.

Circulation had built to 45,933 books in the third year and then slipped back to 44,774 in the fourth. The peak was 78,433 in 1963-64. It slid to 58,129 in 1964-65 and to 56,981 last year.

There were losses in all categories of circulation, adult and juvenile, books and pamphlets and mail requests.

The book collection is 48,505, down from a peak of 50,892 in 1963-64. It was down to 45,207

89, Mackinac 42, Marquette (with the largest population but with 12 libraries in schools and public facilities) 842, Menominee 371, Ontonagon 305, Schoolcraft 211. And 1,023 persons visited the library and asked for books.

Questions

Walk-in patrons of the State Library Branch in Escanaba asked varied questions in June. Some of the inquiries, as recorded:

Do you have any books just on the Mynah bird?

Do you have college catalogs?

Isn't it funny that airplane book is on reserve?

Where will I find books on bio-chemistry?

Do you have books on building chimneys?

Do you have a list of schools for training private investigators?

How do I find books on remedial reading?

Where are the books on Chinese painting?

We were supposed to meet Mr. Hoyer; is there another entry?

Do you have the Bobsey Twins books? Why not?

How do you spell Hearst?

Where are the books on tractors?

Where are the math books for fourth graders?

What happened to Mary Croteau? (At main library, Lansing.)

a year ago, when 9,727 juvenile books were divided between the Mid-Peninsula and Eastern Peninsula library systems.

The Upper Peninsula library picture duplicates its population picture rather generally. There is most library service in the central part of the Peninsula. The Peninsula has 19 public libraries, 16 public-school libraries, 59 school libraries and 7 university or college libraries. The State Library supplements and enriches them with its back-up services.

The Upper Peninsula from Escanaba and Munising east is the map area which shows the fewest library pins.

The counties which have the most library services do the most borrowing from the State Library's U. P. Branch. The requests for books from the state library by counties in the 1965-66 fiscal year from schools: 1,200, public libraries 2,596 and individuals 2,162, totaled 5,958.

The requests by counties: Alger 214, Baraga 188, Chippewa 330, Delta 780, Dickinson 349, Gogebic 196, Houghton 571, Iron 491, Keweenaw 1, Luce

China Checks Its Red Guard

TOKYO (AP)—One million Red Guards and members of the army jammed a square in Peking today for a rally attended by Chairman Mao Tse-tung and his heir apparent, Defense Minister Lin Biao, Japanese press reports said today.

Only hours before the rally, the young Red Guards had been told to end temporarily their revolutionary drive that has brought turmoil to the country and criticism from abroad.

But the fact that the Red Guard rally was held under the highest auspices indicated the youths still rode high in official estimation.

Quoting unnamed sources, Peking-based Japanese correspondents said that after the rally the Red Guard will temporarily halt revolutionary activities in line with the instructions laid down by Red China's leaders.

Idaho Politician Killed In Plane Crash Wednesday

STANLEY, Idaho (AP)—Idaho's Democratic nominee for governor, Charles Herndon of Salmon, was killed on a campaign flight over the wilderness area of central Idaho Wednesday.

He was one of four men aboard a twin-engine light plane that crashed into Elk Mountain about 13 miles northwest of Stanley during cold, foggy weather.

Three of the four were killed. The pilot, William Bir, 45, Twin Falls, Idaho, was critically hurt. Killed besides Herndon, 55, were Robert L. Baldwin, 35, and Lloyd O. Crutchfield, 44, businessmen from Okla. City, Okla., who were flying to Bonners Ferry in north Idaho on Business.

Eisenhower Stays Night In Hospital

WASHINGTON (AP)—Former President Dwight D. Eisenhower is in Walter Reed Army Hospital today for what was described as a routine checkup.

Spokesmen said he would return to his Gettysburg, Pa., office this morning. Eisenhower traveled by automobile from his Gettysburg home to enter the hospital Wednesday night.

Felch won the Wishgan baseball league playoff championship by defeating Peshtigo, 9-4, in the deciding game of the best-of-three series. . . Tony Merhaski, Jim Ebborg and John Constantini shared the mound duties for Felch and the Rangers raked two Peshtigo hurlers for 16 hits, including a homerun by Andy Anderson.

Walt Sliva of Kingsford captured the Oak Crest Golf Club men's crown, defeating Lee Palmer of Iron Mountain 3-2 in the final. . . Sliva will meet Jack Hooper of Iron Mountain, Pine Grove Country Club, for the Dickinson County championship Sunday at the Norway course.

Baraga, after losing its first two games of the football season by 60-0 and 43-0 to Ontonagon and Lake Linden varsity teams, has thrown in the towel. . . The Vikings have called off their Saturday game against the Hancock varsity squad and will play the Hancock jayvees instead.

Coach Rolfe Dotch of Northern Michigan University doesn't usually resort to profanity, but you wouldn't blame him for a couple of mild curses on the subject of knee injuries. . . Northern has lost the services of three regulars and a good freshman prospect for the season because of that type of injury. . . The sidelined regulars are split end Bob Brooks of Providence, R. I., defensive back Mark Martini of Benessemer and defensive back Bob Lantry of Harper Woods. . . The freshman is Grant Frel of Marquette.

James Alford, a major at K. I. Sawyer Air Base, won the Upper Peninsula Shotgun championship in the annual event sponsored by the U.P. Shooting Association by breaking 97 of 100 targets in the skeet-trap competition. . . He edged Walter Daley of Negaunee, defending champion, by one target. Daley won the title here in Escanaba last year by hitting 99 of 100.

Hounds owned by Allen Hendrickson and Marvin Kasbohm of Escanaba were among the winners in the Geoghele Range Beagle Club's 16th annual AKC licensed field trials at Ironwood. . . The event drew 97 hounds from clubs through the Upper Peninsula, Lower Michigan, Wisconsin, Indiana and Minnesota.

Felch joined Hermansville in a tie for first place in the Big Seven baseball conference race by defeating Alpha, 6-0, this week. . . Tom Kenny fired a three-hitter for the mound verdict.

Barry Dehlin, grandson of the G. E. Dehlins of Gladstone, will be in the starting lineup on defense for Michigan when Coach Bump Elliott's Wolverines open their 1966 season Saturday against Oregon State. . . The 200 pound senior plays a left linebacker.

Perry Can't Get Over 20

Gaylord Perry, the first pitcher to join this year's 20-victory club, must have forgotten to pay his dues. . . The San Francisco right-hander, who reached the charmed circle on Aug. 20, failed for the sixth straight time to record his 21st Wednesday when he was outducked by Jim Bunning as Philadelphia blanked the Giants 2-0.

It was a costly defeat for San Francisco. With first-place Los Angeles and runner-up Pittsburgh both idle, the defeat dropped the Giants a full three games off the Dodgers' pace and left them two behind the Pirates.

Richie Allen was the man who did the offensive job for the Phillies. He was at bat with two out in the first inning when Jonny Callison was thrown out stealing. Then Allen, leading off in the second, walloped Perry's second pitch over the right-field fence for his 38th home run of the season.

Bunning, 17-11, took over after that. The veteran right-hander, who was beating the Giants for the fourth time this season, struck out eight, walked only two and scattered five singles.

He got some breathing room in the ninth when Frank Johnson, a Grant rookie, led Callison's drive get past him on a triple and Allen drove the run home with a sac fly.

The two runs batted in gave Allen 106 for the season, third best in the majors.

In the only other National League games played Wednesday, streaking Atlanta topped the Chicago Cubs 3-1 and St. Louis downed Cincinnati 6-2.

In the American League, Kansas City shut out Cleveland 3-0, Boston edged Chicago 2-1 and Detroit edged Minnesota 3-2. California at Baltimore and Washington at New York were postponed by rain.

Perry, 20-7, has lost five of the six games he has started since winning No. 20. He has given up 32 hits and 15 runs in 35 1/3 innings pitched over that span.

'The Blade' Honored As Defensive Player

NEW YORK (AP) — Jim Norton played so spectacularly for the Houston Oilers last week against Oakland that at one point in the game he had the crowd on its feet and a good portion of Rice Stadium at his.

He had to give back Rice Stadium but no one can take away his latest honor, being named Defensive Player of the Week in the American Football League by The Associated Press today.

The designation went to Norton, a 6-foot-3, 190-pound defensive back labeled "The Blade" for his slashing tackles, for making eight tackles, intercepting a pass and handing all of Houston's punting chores in a 31-0 victory over the Raiders.

But the fans in Rice Stadium didn't only come to see the Oilers pull into first place in the Eastern Division with an 8-2 record. By the time the fourth quarter rolled around they wanted the shutout Houston had been denied in crushing Denver 45-7 the week before.

They seemed to have it until the fourth quarter when Oakland started to move behind Norton.

They seemed to have it until the fourth quarter when Oakland started to move behind Norton.

Injury, Illness Plague Crusaders; Braves, Emeralds Face Tough Foes In Weekend Prep Football Action

Injuries and illness continue to cut into the already thin ranks of Holy Name Crusader football players as Coach Tom O'Neill prepares his charges for their home stand against Stephenson Saturday.

The latest backhand from Dame Fortune came in the form of a boils epidemic which has swept through the Holy Name squad.

"Six players from our starting defensive unit are plagued with boils and we don't know yet whether they will be able to play fulltime or even parttime," O'Neill stated today. "There has been some improvement in the condition in the last day or two and we are hoping the trouble will clear up by Saturday. The boys are being treated and all our equipment is being disinfected," he added.

An even more serious blow to the Crusader camp this week was the announcement that Jack Hughes has been lost for the season with a broken cheekbone suffered in the rugged battle at Kingsford last weekend.

Hughes, a two-way performer, was one of the standouts in the Holy Name lineup. He operated at an end on offense and linebacker on defense. O'Neill indicated that Tom Menard will be moved into the end slot with Bill Peltier going in on defense. Joe LeFleur will get a crack at the outside linebacker spot and O'Neill will also try shifting Bob Briscoe to the outside.

The Crusaders had already been hit hard in the line when senior guard Tom Plouff was lost for the season with a knee injury suffered in the opener against Iron Mountain.

Holy Name will enter the game against Stephenson with a 2-0 record, perched atop the Great Northern Conference standings.

Braves Must Adjust Stephenson, directed this year by John LaPointe, former star football player at Ishpeming High School and a Northern graduate, has bowed twice this fall. The Eagles lost to Marietta Catholic Central in their opener and to Gwinn last Saturday in non-conference action.

In the Gladstone camp this week, Coach Don Potenhauer's Braves are making adjustments to fill the hole left by breakaway runner Tom Stade who is due for knee surgery this week.

Gladstone faces its stiffest test of the season Friday night in a game at Ishpeming. The Braves will be shooting for their third straight triumph after victories over Gwinn and Newberry. Ishpeming is 1-1, beating Manistique and bowing to Negaunee.

Potenhauer has shifted power runner Gary Larson to the

left halfback spot with Mike Cole moving into the fullback slot and Mike Damitz manning the right half duties. Dan Gopin remains at quarterback. Dan Gopin is the No. 1 replacement in the running back spot.

Emeralds At Home

The remainder of the Gladstone starting lineup is healthy. Mark Stupak and Ron Deault will get the nods at offensive end. Roy DeWitt and Allan Robitoy at tackles. Mike Manisac and Jim Cornell at guards and Dick Frick at center.

Larson has been Gladstone's

Women Golfers Receive Prizes

Prizes and awards were presented at the annual Escanaba Country Club women's league playoff dinner Wednesday.

Winners of trophies were Harriet Fitzharris, Rosemary Sankovich, Karen Tochtman and Leslie Sandefur. Runners-up were Doris Swanson, Ann Harrington, Ruby Rahoi, Mary Ann Cerasoli and Rose Dawson.

Low scorers on league days were Rosemary LeMire, Jeanette Manning, June Baum and Barbara Peterson.

Lowest number of points won were by Marilyn Knoll, Mary A. Tobin, Betty Ann Christensen, Sheila Curtis, Nona LeHouillier and Imogene Gregory.

Ringer tournament winners were Ruth Needham, Corrine Leitzman, June Baum and Lois Biscomb. Most improved golfer was Donna Andrews. Peg Douglas won the handicap tournament.

A Corn Festival will be held Wednesday, Sept. 21, with Ann Harrington and Harriet Fitzharris as co-chairmen. Standing reservations are no longer in effect and reservations for the Sept. 21 and Sept. 28 dinners must be made by calling the club. Reservations must also be made for the closing meeting and luncheon Saturday, Sept. 24.

Big O Missing From Workouts

CINCINNATI, Ohio (AP) — Oscar Robertson and Lenny Hayston failed to show up for the opening of the Cincinnati Royals fall training Wednesday and were officially classified as hold outs.

Robertson, star guard for the National Basketball Association club, is reportedly asking for a contract of \$100,000. Hayston said he is seeking a \$3,000 to \$5,000 raise.

Robertson held out for 26 days last year until he reportedly received an \$80,000 contract. He missed all of the training season and exhibition tour in 1965.

major ground gainer in the two opening victories and scored the lone touchdown in the 6-0 decision over Newberry last Saturday.

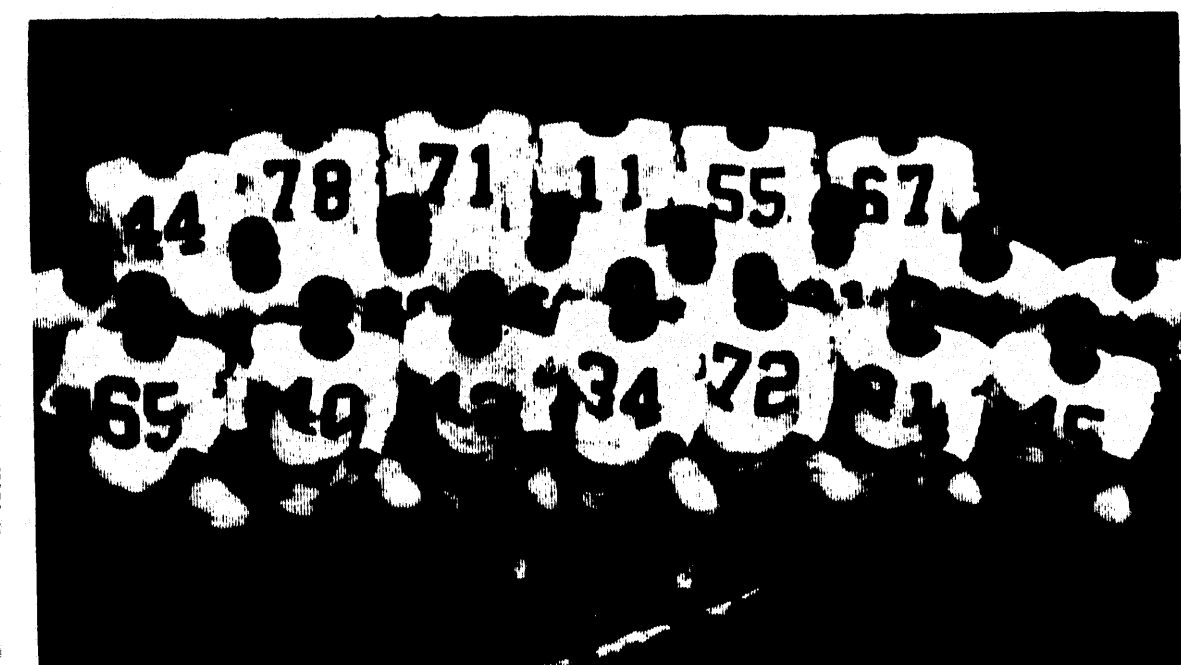

At Manistique this weekend, Coach Ron Rubick's Emeralds jump from the frying pan into the fire when they face the rampaging Munising Mustangs Friday night.

Eskymos Shuffled
Manistique has tasted defeat at the hands of Ishpeming and Sault Ste. Marie to date. Munising has galloped over Newberry and Marquette to share

the Great Lakes Conference lead with Negaunee.

Coach Jerry Cvangros' Escanaba Eskymos drew a bye in the schedule this weekend and will not be in action until Sept. 24 when they host Kingsford in a Great Northern contest.

Cvangros has shuffled his starters in workouts this week, moving second stringers into the No. 1 lineup. The shakeup was made following an 18-4 loss to Menominee in which the Eskymo coach was unhappy with the performance of several senior regulars.

THE UPPER PENINSULA is well represented on this year's Michigan Tech varsity football team. Of the 66 players who reported to Houghton for the opening of drills Sept. 1, the 21 shown above call the U.P. home territory. Front row left to right: Bill Janeshek, Kingsford; Paul Dougovito, Cedar River; Tom Csmarich, Ontonagon; Paul Butkovich, Houghton; Jerry Pertunen, Marquette; Dave Johnson, Ironwood; and Jim Spulter, Sault Ste. Marie. Second row: John Deldon, Twin Falls; co-captain Jay Dishnow, Iron Mountain; Dave Paris, Menominee; Bogue Sandberg, L'Anse; Bill Bassett, Ironwood; Dennis Sundberg, Ahmeek; David Sundberg, Ahmeek; and Ed Tafelski, Ironwood. Third row: Stan Pakula, Stambaugh; Mike Compans, Crystal Falls; Mike Zimmerman, Sault Ste. Marie; Dane Dominici, Iron River; John Benaglio, Stambaugh; and Dave Penkevich, Stambaugh.

Tech Gridders Invade Alma For First Clash

HOUGHTON—Men of Tech, some 33 strong, will leave by bus Friday morning for Alma to open Michigan Tech's 1966 football schedule.

Head Coach Bill Lucier announced his travel roster today. Besides the 33 players, six staff members are included in the travel group.

The Huskies will board the University bus at Sherman Gym at 8 a. m. and travel to Central Michigan University, Mount Pleasant, where the squad will work out at 4 p. m. The team will quarter at the Chiffen Hotel in Mount Pleasant and travel to Alma for the 2 p. m. game on Saturday.

Included in the opening game travel roster are six ends, seven tackles, seven guards, three centers, two quarterbacks, six halfbacks and two fullbacks. Of the 33-man unit, eight players are freshmen, indicating Lucier's confidence in his newest group of recruits. Lucier also said several of these first-year men will see action against the Scots.

CENTERS — John Benaglio, Al Hartman and Alex Pociask.

QUARTERBACKS — Co-Captain Jay Dishnow and Mike Merlo.

HALFBACKS — Ed Caterer, Tom Csmarich, John Deldon, Fred Hall, Dave Johnson and Ken Mazur.

FULLBACKS — Dennis Bienkowski and Mike Eastlake.

News 'N Notes On NFL Action

WORTHY CHARITIES benefitted to the extent of approximately two million dollars from non-league games played by the National Football League in 1966. . . The figure, considerably higher than the amount raised by any other sports league, brought the total NFL-contributed charity funds since 1961, the first year pre-season attendance approached a million fans, to nearly nine million dollars.

PERHAPS OVERLOOKED in the all-around excellence of the Green Bay victory over Baltimore was the play of second-year man Bill Curry at center in place of injured regular Ken Bowman. . . "The most I played in any one game last year was about one-half of one quarter," said the versatile Curry, who also provides the Packers' with line-backing depth.

And the actual playing is only part of the Curry story. . . Also, as part of the center's responsibilities, he had to call the blocking at the line of scrimmage. "The other four offensive linemen helped me with the calls and steadied me all the way. Ken Bowman was a big help, too. He talked to me on the sideline. . . "Bill was tremendous," said guard Fuzzy Thurston. . . "Sure, we talked to him more than we do to Ken, but that was the only difference. Physically, he gave us the same top performance we always have in there."

FOUR TIMES THE PHILADELPHIA EAGLES dumped Charley Johnson for losses while the St. Louis quarterback was attempting to pass last Sunday and three of those times the man who got him was Harold Wells, the '65 rookie who has the unenviable job of replacing traded Maxie Baughan in the hearts of Eagle fans. . . From his right linebacker spot Wells nailed Johnson for losses of 5, 11, and 10 yards, accounting for 26 of the 33 yards Johnson lost attempting to pass.

"The thing about Wells," says Eagle Coach Joe Kuharich, "is that he is quick enough to go in there and still recover and get back out if he has to." . . It was also Wells, who started only one game in '65 when Baughan was injured, making the stop on St. Louis rookie flash Johnny Roland when he was thrown for his only loss of the day, and it was Wells again that put such a rush on Johnson that an attempted screen pass to Roland went awry. . . Eagle runner Tammy Brown, got two yards on a kickoff return—the final play of the game—to total 114 yards over-all for the day and hit exactly 10,000 combined net yards gained for his career.

McLain Winner, Tigers Tighten Grip On Second

By The Associated Press

Denny McLain's strong right arm has set the Detroit Tigers loose again, but their only hope for a kill may rest in the hot hands of the Kansas City kids.

McLain, closing in on the 20-victory circle, checked Minnesota on four hits Wednesday night as the Tigers edged the Twins 3-2, strengthened their hold on second place in the American League and kept their faint pennant hopes alive.

Kansas City, meanwhile, ran its winning streak to six games by blanking Cleveland 3-0 on a five-hitter by John (Blue Moon) Odum, youngest of Manager Alvin Dark's pitching prodigies. It was the first major league

shutout for Odum, a \$75,000 bonus baby who celebrated his 20th birthday four days ago.

The Athletics, who have won eight of their last nine behind Jim Nash, 21; Lew Krausse, 23; Gil Blanco, 21; Paul Lindblad, 25; and Odum — with brilliant relief help from Jack Aker, 26 — conceivably could produce a flag race in the last two weeks of the season.

They have five games remaining with the front-running Baltimore Orioles, who lead Detroit by 9 games despite a four-game losing string. The Tigers blew an opportunity to close the gap—and fell into third place—last weekend when they dropped three in a row to the surging A's.

But they have taken two straight from Minnesota, climbing 1 1/2 games ahead of the Twins in the uphill race against time and the Orioles.

In Wednesday's only other AL action, Boston nipped Chicago, 2-1 on Joe Foy's two-run homer. The Baltimore-California doubleheader and a single game between Washington and New York were rained out.

Philadelphia beat San Francisco 2-0, Atlanta trounced Chicago 3-1 in 10 innings and St. Louis defeated Cincinnati 6-2 in the only National League games scheduled.

McLain struck out nine Twins and weathered two bases-empty homers by Jimmie Hall in lifting his record to 19-12. He has won five of his last six decisions after a prolonged July-August slump.

Singles by Willie Horton in the first inning and Al Kaline in the fourth produced Detroit runs and another scored on Hall's two-base error in the third.

Odum scattered five singles and fanned five while outpitching Cleveland's Sam McDowell and squaring his record at 4-4. He has allowed only two earned runs in his last four starts—including a one-hit 4-1 victory over New York—lowering his ERA from 5.00 to 3.04.

The A's nicked McDowell, 8-5, for only three hits in the seven innings he worked, but bunched Danny Cater's single, Joe Niese's double, a walk and a ground out for two runs in the second. The other hit off McDowell was a fourth-inning homer by Dick Green.

McDowell posted eight strikeouts and Luis Tiant added six in his two-inning relief stint for the Indians, who have lost five in a row.

Foy rocked Chicago starter Bruce Howard for his 15th homer following a fourth-inning single by Jose Tartabull and the Red Sox held on behind winner Hank Fischer and reliever Don McMahon.

The White Sox scored in the sixth on singles by Bill Skowron, Ken Berry and Duane Josephson.

Esky Jayvees Play Saturday

While the Escanaba Eskymo varsity team takes a week off from competition, Coach Frank Minketina's Esky Jayvees will host the Manistique junior varsity team Saturday in a game starting at 10 a. m. at the athletic field.

In their low start to date this fall, the Esky Jayvees were nipped by Menominee, 13-6, last weekend.

The Escanaba freshman grid team has a game on tap Saturday, Oct. 1, against the Gwinn Jayvees.

Kay Blowers, Terry Chartier Are Married

Mrs. Terry Chartier (Mincoff Studio)

Kay Louise Blowers, daughter of Mrs. Verna Blowers, 805 Garden Ave. and Terry Lee Chartier, son of Mr. and Mrs. Leo Chartier, 208 Chippewa were married in a 3:30 p.m. ceremony Saturday in the bride's home. John Paketty, probate judge, officiated at the single-ring ceremony.

Rita Chartier, sister of the bridegroom was bridesmaid.

The bride wore a white gown with nylon lace bodice with scalloped neckline, long pointed sleeves, back bow accenting long flowing panels, and lace-trimmed hemline. She wore a gold cross and carried a bouquet of red roses and pink carnations with ivy.

The bridesmaid wore a pink-rose floral brocade with semi-scoop neckline and back V and a corsage of pink and white carnations.

The bride's mother wore a plum-colored 2-piece suit and Mrs. Chartier, a gold-colored 2-piece suit. They wore corsages of pink and white carnations.

A reception for 300 was held in the K-C Hall. Laura Rice cut the 3-tier wedding cake.

The couple will live in Manistique.

MANISTIQUE
Mighty Mack Toll More Than Soo's Change Is Urged

It costs more to come from one part of Michigan to another, the Upper Peninsula via the Mackinac Bridge than it does to cross from Upper Michigan into Canada and come back. Charles Varnum, Republican candidate for 10th district representative noted this week.

Two steps are necessary to accomplish complete elimination of the Mackinac Bridge tolls. The first is refunding of the outstanding revenue bonds to general obligation bonds.

This will reduce tolls through interest savings. However, at this time this would be useless as the bill passed by the Legislature has a 3.25 per cent interest ceiling specified for the refinancing.

Republicans urged passage of a suitable bill during the 1965 session, while bonding counsel was warning of impending rises in interest rates. Democrats blocked efforts for passage in the House of Representatives until a carbon copy

of the Republican bill was taken by my opponent and introduced in the House as his bill Varnum said. By that time, interest rate had mounted and the bill is now useless.

Visits Plants The bill which was enacted should be amended to remove the 3.25 interest ceiling so complete toll elimination is possible through refunding, he said. Even at the current bond market, \$1.2 million would be saved.

"I would be in favor of using a small portion of the gasoline tax for debt retirement. Additional savings can be realized from transfer of the bridge operation to the state highway department," he noted.

Present Mackinac Bridge tolls are \$3.75 one way, plus additional charges for passenger. Tolls on the Soo international bridge are \$1.80 round trip.

Varnum has been continuing his campaign, working 14 to 16 hours a day. Visits have been made to Mead and Harnischfeger plants and Chatfield Machine Co., in Escanaba and a week spent in the Soo.

Reception by workers has been "wonderful," he stated. Varnum said he has obtained a copy of the voting record of his opponent and was "much surprised to see how the district has suffered. The district needs representation in Lansing and has been harmed by excessive partisanship."

Advisory committees are being expanded, in each of the counties, to include youth representation. Varnum said he favors the vote for 18-year-olds as they are well-informed. Giving the vote at a younger age will create more interest in government and high school social studies departments will have more responsibility to understand government.

Draft Check The Volunteers for Varnum have created much interest in the district. They are a communication link between government and the people, he explained.

Crime and highway safety were cited by Varnum as two important problems in the state. He challenged his opponent's voting against the auto inspection bill consistently and said the Legislature added to inflation problems by spending \$33 million more than the governor asked.

Whenever a program has been in effect very long, re-evaluation should be made. On current complaints regarding draft board selection, a check should be made, he said.

Church Events First Baptist The Women's Missionary Society meets Monday at 7:30 p.m. Hostesses will be Mmes. Wesley Buzzo, Ronald Jones, Walter Cummings and Harold Ekblad.

Hospital Admitted to Schoolcraft Memorial Hospital were Reinhart Schroeder and Michael Klobucher.

Discharged were Alta Bales, Victor Martin, Walter Hampton, Ian McKilligan, Myrtle Moore, George Miron and Irene Winkler.

Fines of \$45 each and costs of \$16 each were assessed in Justice Court to Terry Lee DeMars, 18, Leslie W. Gould, 20 and Lawrence DeRousha, 18 of Manistique after a jury of six Wednesday found them guilty of being minors in possession of beer. Complaint was made by the Public Safety department.

Cars driven by Richard C. Lyntis, 59, of 109 N. 5th and Joan J. Lowery, 28, of 233 N. 5th were damaged in an accident on U.S. 2 near Fairview Cemetery at 7:55 a.m. Wednesday. State Police said Lyntis stopped for a school bus and was struck in the rear by the Lowery car. Mrs. Lowery was given a notice to appear for a violation of the basic speed law. No one was injured.

Bowling Notes SATURDAY MIXED COUPLES Team: Tunnell-Schwchow 3-1, Goldie-Lancour 3-1, Rodman-Kane 2-4, 1-2, Henry-Tennison 2-2, Lambert-Adams 2-2, Nygard-Miller 1-3, Burley-Jenerou 1-3, Nelson-Kruse 1-3, IFTM: Tunnell-Schwchow 134, HIX: Charles, Burley 312, Dorothy Jenerou 439, HIG: Dave Henz 211, Down Tunnell 166.

BROWN'S BURIAL PLACE John Brown, abolitionist whose raid at Harper's Ferry helped precipitate the Civil War, is buried in a farm he owned, now maintained as a historic site.

View Financing Available For City Improvements

Members of the City Council met Tuesday night with George Bean, retired city manager now living in Grand Rapids, to discuss financing capital improvements, particularly streets.

Bean, who served as manager in Escanaba, Grand Rapids, Pontiac and San Diego, said there are margins in the city financial structure for improvements, though not great. Special millage coupled with special assessments, judiciously used were cited for street improvements and rate increases in the water and sewer charges for necessary underground work before street surfacing.

Present indications are that there are more applications for federal aid than there is money to fill them, he said. A balanced long-range program was suggested using all means available to finance.

Possibility of a millage vote, with freedom left to the city to determine whether it would be used to pay directly for improvements or to finance bond issue was considered.

The Council in its business session accepted the bid of Creighton Ford on a refuse truck with packer, and adapter. The adapter cost \$175 more than the bid price of \$6,989. The Ford bid was accepted as that in the best interest of city, as it provides a larger truck at only \$183 more cost than the low bid.

Pact Ratification Is Claimed Silly SALT LAKE CITY (AP) — A top labor negotiator in the mining industry thinks it's silly to have union members ratify an agreement reached by their negotiators.

It makes no more sense than to have stockholders ratify it, Edmund J. Flynn told the American Mining Congress at its annual western convention that concludes today.

Flynn, the industrial relations counselor for the Western Mining Divisions of Kennecott Copper Corp. said:

"Today union and management are mature entities. If a management representative is expected to be able to conclude agreements at the bargaining table, no less should be expected of union representatives."

"Good faith bargaining requires that it will take legislation to make this a collective bargaining rule."

Flynn also suggested legislation to prevent what he called "the fragmentation of one plant or one operation into many collective bargaining units."

The labor relations resolution adopted by the Mining Congress this session called, among other things, for:

"Prohibition of compulsory unionism in any form.

"Applications of the principles of the antitrust laws to labor unions.

"The right to strike and the right to lock out should be parallel in scope.

"The jurisdiction of the National Labor Relations Board over unfair labor practices should be transferred to the federal district courts."

State Cranberry Crop Is Small EAST LANSING (AP) — Despite an effort by Michigan agriculturists, the cranberries to go with your Thanksgiving turkey this year probably won't come from Michigan.

Researchers have been working with a Wisconsin cranberry grower in trying to develop cranberry growing in the Upper Peninsula.

But the cranberry area so far amounts to just a three-quarter-acre bog near Newberry, and the late spring freeze cut the potential crop in half, the researchers report.

Plan Sangfest In Pulaski Park Inflation Is An International Ill

GLADSTONE — A Gospel "Sangfest" will be held at Bark River Sunday beginning at 2:30 p. m. in Pulaski Park, on U.S. 2 and 41. If the weather is unfavorable the Sangfest will be held in the Bark River Town Hall.

A program of Gospel singing and music is being arranged by Edward N. Berg and James G. Haga featuring stringed instruments and various vocal arrangements, solos, duets, trios and a male quartet. Swedish songs will also be included in the program.

The string group which furnishes accompaniment is composed of Marie Collins, Mrs. Esther Ekstrom, Major Orville Butts, Rev. Gerold Brady, Edward Berg and James Haga. Major Clara Hegstrom, a retired Salvation Army Officer, formerly stationed at Escanaba, and Mrs. Ekstrom will sing several Swedish duets. Others taking part in the vocal portion of the program will be Bonnie Butts, LeRoy Butts, Darryl Lundquist, the Walter Nordin Family, Rev. Lowell Fox and family, Paul Smith and Ray Anderson.

The public is invited to attend and refreshments will be served by friends of the "Sangfest" from the Bark River area.

NEW YORK (AP) — The economic inflation that has brought a fever of interest rate and price increases in this country is just a glimpse of what is happening around the world.

Inflation, or the threat of it, is not a domestic ailment; it is an international malady.

Some nations are in serious trouble because of rising prices. In Brazil, for example, an item that cost \$3 in 1955 might cost \$100 now. And in Britain the situation has been termed grave.

Inflation is caused by an excess of total demand—from government, labor, consumer, businessman, military—on the supply of goods and services that can be produced. Sometimes this demand is fueled by the availability of too much money.

The problem can be reduced by lessening demand. For a long time rising interest rates were used to take the enthusiasm out of buying and borrowing. Just as the high cost of a suit of clothes lessens enthusiasm for it, so does the high cost of borrowing lessen the demand for money.

The Federal Reserve, which regulates the supply of money, has recently been closing the faucet, lessening the amount of cash flowing into the economy. The administration also has

acted. By recommending that tax credits to business be suspended, President Johnson undoubtedly has made businessmen think twice before committing themselves to spending programs that would put more demands on the economy.

These measures are mild when compared with what has occurred in some countries. Most of the major industrial nations have been forced to tighten their belts.

Belgium has adopted price controls, the Netherlands has both monetary and fiscal restraints. Germany has wage and price limits. The measures have been very pronounced in Britain and Canada.

Finance Minister Mitchell Sharp shook up Canadians last week by warning of tax increases, by postponing the government's medical care program, and by deferring other spending programs.

One of Sharp's measures gives a good picture of how government can lift or lessen demand. For each house built during Canada's severe winters the government had been paying a \$500 bonus. Because this was a source to spending, Sharp said it will be discontinued.

Four Peninsulans Start Dentistry

ANN ARBOR—Ninety-eight future dentists are starting their four-year course at the University of Michigan School of Dentistry. All but 11 are Michigan residents.

The Michigan students in the entering class include four Upper Peninsulans: James Harold Tonn of Escanaba; George Peter Kelley, Gladstone; Kenneth J. Lagina, Iron Mountain; and Paul J. Agneberg, Menominee.

120,000 Killed

CHICAGO (AP) —More than 120,000 deer were killed on roads by vehicles in 1965, the National Safety Council reported.

WNMR Telecasts Traffic Safety Instruction To 33 Communities

MARQUETTE — Northern Michigan University's educational television network this week began beaming instructional programs for Upper Peninsula schools.

Fourteen series for in-school utilization during the 1966-67 school year, ranging from art to Michigan conservation, are being telecast from the University's WNMR-TV studios and are being distributed via community cable systems across the Peninsula.

Daily programming begins at 10 a. m. and all lessons are repeated in the week to facilitate class scheduling.

New programs offered to subscribing schools this fall include art for the elementary grades, English grammar for the fourth and fifth grade levels, geography for grades four through six, and increased programming at the junior high level in science, physical education, music and literature.

Traffic Safety Meeting Set Oct. 3

Federal funds for local traffic safety programs under the recently signed 1966 Highway Safety Act is one of the principal items on the agenda of a nine-city series of 1966 Governor's Regional Traffic Safety Conferences.

The U. P. meeting, open to the public at registration cost, will be held in Iron Mountain, Oct. 3.

Levy Approved

WOLVERINE (AP)—Voters in Wolverine approved, 89-39, a two-mill levy for one year for school operations.

Activated in February, 1965, NMU's ETV network transmits instructional and cultural programming to more than 33 Peninsula communities via cable and microwave relays.

Hospital Pay Gains 7.7 Pct. Over Last Year

The pay of Michigan hospital workers—an item that represents more than two-thirds of hospital operating expenses—shows a 7.7 per cent increase, according to the 1966 Michigan Hospital Association survey.

The survey covers hospital workers in 22 representative job classifications and reports were received from 168 hospitals. The average monthly starting salary reported by the hospitals was \$378 and the present "going" rate for the 22 classifications is \$418. This compares with \$357 and \$388 in 1965.

Since the survey was started in 1959 the Consumer Price Index has shown a 12.5 per cent increase, while average hospital wages have increased 28.6 per cent.

General duty nurses, who constitute the backbone of hospital work forces, experienced an increase in starting wages of more than 6 per cent, which contributed to an overall increase of 33.1 per cent since the 1959 survey.

The top five salary classifications reported based on the average "going" rate: nurse anesthetist, \$708; pharmacist, \$658; social service worker, \$574; physical therapist, \$565; and dietitian, \$549.

Children Picket For Dad's Job

DETROIT (AP)—"My Daddy Wants to Feed Us," read the picket sign.

The picketer was one of six children, age 8 weeks to 6 years, trying to help Daddy get his job back at Chrysler Corp.'s Sterling Stamping plant in suburban Detroit.

Leo Wall and his wife, Janice, bundled up their six children and took them to the stamping plant at 6 a. m.

Each carried a cardboard sign marked in crayon with "All we ask for is fair play — Help!" and "It will be cold this winter if my Daddy can't buy fuel."

Wall, 29, was suspended indefinitely last Friday for allegedly abusing washroom privileges. Spokesmen for his union—Local 1264 of the United Auto Workers—and Chrysler said the case is being investigated and would be processed under normal procedures.

Wall had been temporarily suspended two other times in the past. He contends all the suspensions were unfair.
